BIG MAN REDUCES BULGES IN ONE DAY

A prominent resident of our city claims to have the power of removing unsightly bulges in one day. The resident, Mr. Calvin W. Wolf, demonstrated his technique before an interested group yesterday.

His first step is to strip the subject. Then, taking the left arm, he covers it tightly with a three-inch strap. Over the strapping he wraps a burlap covering. On that goes a hair-like substance, then cotton and muslin, and finally a cloth covering. . . completely removing all bulges from the chair arm.

Mr. Wolf, meticulous owner of the Expert Furniture Cleaners and Upholsterers (Roseburg's finest), directly behind Richie's Foot Beer Drive-in on Highway 99 North, feels that his beautification methods should be of vital interest to all ladies concerned about their overstuffing. Besides furnishing wholesome, relaxation. . . the study of music helps the housewife to gain in grace of movement and carriage as well as poise. Yes playing a musical instrument between chores can do a lot for you.

The act of making music relaxes the body and chases away crow's feet. . . develops proper posture. The hands get toned up and grace of arm and hand action is developed. Some Foods Are DOWN

Regardless of what the news headlines read, some food prices are down. Why do we say that? Prices are down on some items because there is a bigger supply this year than there was last. This is just a simple truth of that old law of supply and demand. Your local grocer watches his market very closely for any price fluctuations. As soon as his cost is decreased so are his prices. This is not only true at Nielsen's but it is also true at any other grocery in Roseburg. It must be remembered that all food prices have not declined but a good many of

the foods that we eat and use everyday are down in cost in comparison to a year ago. In order to show the price differential from a year ago we have made up this list of food items to illustrate the lower cost in 1952. The 1952 prices are our regular shelf prices. Remember, your grocer follows the market in setting his prices and you can depend on him to pass along to you any lower costs as they occur. Your grocer wants lower prices as much as you do.

Look at these price comparisons!
