Ex-Communist Will Discuss Experiences

For nine years Matt Cvetic was a member of the Communist party. But for a different reason: He was a spy for the Federal Bureau of Investigation.

What he endured during that period will be explained by him in the Junior High School auditorium April 10. There will be no admission charge.

Of those nine years, Cvetic says: "It was not fun to endure those years. My mother died believing me a traitor to my country; my family shunned me and refused to speak, and my father offered to pay the legal bills if I would change my name."

Recently, he wrote three articles that appeared in the Saturday Evening Post recounting his experiences and the aims of the Communists.

While acting as a Communist, Cvetic submitted 20,000 reports to the FBI.

He is being sponsored by the Douglas County Flour Mills and radio station KRNR.

ing, but a company spokesman said there "will be no change in the company's position."

"I can't make that too emphatic," he added.

He said the company considers the average weekly earnings of its employees, which he put at \$72.17, as "very fair" and that the strike "is unnecessary."

The AFL union is seeking a 16-cent an hour boost from the telegraph company. It also is asking a shorter work week and other benefits. Present wages average between \$1.53 and \$1.63 an hour.

PORTLAND — Western Electric Company workers in Oregon joined in a nationwide strike at 6 a.m. Monday.

Arne Gravem, Oregon director of the CIO Communications Workers of America estimated that about 360 workers, employed by Western Electric to install and repair equipment for the Pacific Telephone and Telegraph Company, were involved.

A telephone company spokesman placed the figure at about 200.

Downtown Portland telephone company offices were picketed for about 45 minutes after the workers struck. Gravem said they probably would picket no more Monday. He said he did not know what Tuesday's strategy would be.

Oregon telephone company workers, although members of the same union, are not involved in the strike. But Gravem said they would observe Western Electric picket lines.

Telephone service has not been affected.

Former Dillard Man Injured In Collision

By ROSA HEINBACH

Ted Johnson, former Dillard resident, was injured Monday morning when his loaded logging truck collided head-on with a passing empty logging truck, east of Sutherlin. He is in Douglas Community Hospital in a critical condition suffering from hip and back injuries. It is reported he will be confined to the hospital for at least six weeks.

Johnson now lives in Roseburg and has hauled logs for the Dillard Ford's lumber company for several years.

Dillard News Briefs:

be of much help in picking the best qualified men."

The board plans, the chairman says, to place all applications and credentials in the hands of a committee of three impartial educators from the University and OES. The committee will screen out the best prospects and submit to the board a list of those applicants who, in the committee's opinion, are best qualified to serve the district. The district board will make the final choice.

The fact that the district now is sixth in size in Oregon makes it necessary to employ an assistant superintendent, a fact the board has long recognized, Harpham says. The present district clerk, he said, has been asking for some time to be relieved at the earliest possible date. The clerk's job currently is on part-time basis. The board now proposed to employ a full-time man to serve in a dual capacity as assistant superintendent and district clerk. The superintendent thus would be freed from other than supervision over the business affairs of the district and could give his full time to educational matters.

"The board is anxious to put the Roseburg school system on a level second to none in the state," Harpham says. "To this end it welcomes the cooperation of interested citizens as individuals or as groups."

Harpham indicated that the board is disturbed by "cross-currents" of opinion within the district, although realizing that friction is certain to occur in a unit expanding as rapidly as the Roseburg district.

The board appeals, he said, for cooperation and tolerance in efforts to organize the administrative department, promising that it will seek the best possible assistance and advice in meeting the many difficult problems now faced.

home, they encountered heavy rain and snow. Bert Colvin, Dillard sawmill man for over 18 years is now employed at the Riverside Polytech High School.

Sunday, Mrs. W. F. Bonebrake of Melrose and Mrs. Fred Albertus motored to Portland by way of Mc Minnville where they stopped overnight to visit the former's son, Dick Bonebrake, who is attending Linfield College.

Mr. and Mrs. J. Kearby Masters were guests Sunday of Mrs. Master's brother and sister-in-law, Mr. and Mrs. Alton Owens, and daughter, Karen.

Easter marks the end of the Easter Seal sale campaign. It began March 13.

The campaign is being conducted to raise funds to finance services for crippled children and to support a nationwide program of education, research and to direct services of the National Society for Crippled Children and Adults.

Forty-eight states, the District of Columbia, Alaska, Hawaii and Puerto Rico are participating in the Easter Seal sale drive.

During 1951, the National Society and its affiliates offered aid to nearly a quarter of a million crippled children and adults through activities including diagnostic clinics, treatment and training centers, convalescent homes and children's hospitals.

LOS GATOS, Calif. — A Navy Reserve transport plane, groping through rain and fog in the Santa Cruz mountain area, smashed into an 800-foot peak Sunday night.

Three bodies had been removed from the tangled wreckage. Navy officers at Moffett Naval Air Station said possibly a fourth was in the scattered debris of the R4, similar to a civilian DC-3.

CHRYSLER FirePower is so much more than HORSEPOWER

- + It's worth remembering that today's Chrysler V-8 is not a "warmed-over" engine; but basically brand new... the first truly new type engine of modern times. It does, indeed, open new horsepower potentials, but what it can mean to you goes way beyond that...
- + FirePower gives your gasoline a better place to work... the first hemispherical combustion chamber in a stock-car engine. It makes possible more power from every drop of gas. You feel it the minute you open up a Chrysler, in greater accelerating power than you've ever had at your command...
- + FirePower is also a better-built engine throughout. It doesn't require premium fuel. It runs with less waste, less heat, less wear, less carbon deposit than other type engines can do. More of your gasoline's energy is turned into actual road power, greater reserve for passing and top speeds when needed...
- + Why not drive this revolutionary new-type engine, and feel its wonderful difference for yourself? Let your Chrysler dealer show you how much more than horsepower your money can buy in the engine Chrysler has designed from scratch to do an engine's job better, longer, and more efficiently than previous engines can hope to do!
