**TO ALL FORD TRACTOR OWNERS:**

We have been informed by Thomas A. Farrell, president of Dearborn Motors Corporation, that the suit against Ford Motor Co. and Dearborn Motors Corporation brought by Harry Ferguson and Harry Ferguson, Inc., has been settled.

Mr. Farrell states that all owners of Ford Tractors, and prospects considering the purchase of Ford Tractors be given the following information:

1. The settlement of the suit will have no effect whatsoever on the availability of Ford Tractors to distributors, dealers or their customers. Changes in the pump of the Ford tractor, called for in the settlement, will be made in the latter part of 1952.
2. The Ford Motor Company will continue to produce and Dearborn Motors Corporation will continue, as in the past, to supply any and all needed repair parts for all 9N, 2N and 8N Ford Tractors.
3. Ford Tractors will continue to offer all the present advantages of hydraulic control, the present method of attaching and operating implements and all other features responsible for their wide popularity.

Regardless of what you, your Ford Tractor owners, or your prospects may hear to the contrary, there is no room for question or misunderstanding regarding any of these points.
