

Taft Would Impeach Truman For Steel Grab

BOSTON (U.P.) — Sen. Taft said Thursday Congressmen should "consider" impeachment of President Truman for his seizure of the steel industry.

"I think the seizure of steel is a valid case for impeachment," he told a news conference. "It is valid for presentation to the House certainly."

The Ohio Republican said that he and three other senators are supporting a resolution directing a Senate committee to study the President's legal rights in making the seizure.
