Sid Says:
Seems like some of our fans are giving me the rozz about the names of cameras used in the last publication. Between the newspaper and my scribbling we misspelled the Roliflex name. Technical, but true.
Boy, are the films rollin' in since the sun came out! Hadda put a man out front all day to write up orders. Thanks a lot, folks.
About photo finishing: We will be very rushed from now to October, so if we "err" on your order please bring in the bad print and neg. for re-do. They sometimes slip past our checkers.
I see Mrs. Jones out front getting a new Weston meter - hope she likes it. Better put a case on it though, that's important. Fern Dailey from Winston got a new Strobe flash. Guess she's tired of changing flash bulbs.
Watch the date on your films - be sure it's in its time period. C'mon in for camera clean-up and bring your filters for check-up. It's yellow filter weather.
See you next week.
