

Rural School Districts Vote On Budget May 19

(Continued from Page One)
coming budget is the provision for teacher salary adjustments, Barneburg said. For the first time, salaries will be granted on the basis of training and experience. Previously, flat allotments—one for high school teachers and the other for elementary teachers—had been made.

Another change planned for the 1952-53 year is a provision allowing teacher sick leave to accumulate at 10 days per year to a maximum of 30 days.

Both changes had been recommended by a special committee, consisting of four educators, three school board members and one school clerk.

At all districts, except Myrtle Creek and Sutherlin, the polls will be open from 7 to 9 p.m. standard time (8 to 10 daylight time). In the two exceptions, polls will open at 7 p.m. and close at 8 standard time.

All school districts in the county will take part in the voting except those not in the Rural School District.

The exceptions are Roseburg District 4, Reedsport Elementary District 105c, and joint district No. 143, Ada, which is in the Rural School District for high school purposes but is exempt from the elementary school tax in Douglas County because it's part of the Lane County elementary school district.

Estimated elementary school expenditures in the rural school budget are \$1,580,688.45. For high schools the estimated expenses for the coming school year are \$927,242.

The two budgets together provide for 384 teachers, 42 full-time custodians and 15 part-time custodians.

Tax Credit Denial Proposal Rapped By C. V. Stanton

A Minnesota senator's proposal to deny tax credit to industries or businesses using advertising to complain of alleged infringement on free enterprise was criticized Monday night by News-Review Editor Charles V. Stanton.

Stanton addressed the dinner meeting of the Junior Chamber of Commerce. He spoke on the "Leaf of Freedom."

The proposal is that of Senator H. H. Humphrey. "There is an old saying to the effect that 'we never miss a slice from a loaf that has been cut,'" Stanton said.

"Once we have begun to nibble away at the leaf of freedom, it becomes progressively easier to take the next bite until soon the loaf is gone," the editor said.

The government's side of any controversy is "aired not only through the press, he said, but by 'thousands' of paid publicity men.

"But now it is proposed that if business or industry wants to tell its story to the people, it is to be penalized. . . in other words it just isn't right to protect yourself," he added.

"If it becomes possible for the government to place a little penalty on criticism, does it not then follow that the penalty may be increased?" he asked. "If the government's right to penalize those who do not agree with its acts or policies is once recognized and permitted to become established, where will it end? In Russia the end is a firing squad or a Siberian slave labor camp.

"It can happen here."
In a business meeting before the speech Jaycee members discussed the driver training school, the Deer Creek juvenile fishing area, and a planned Fourth of July fireworks display.

A high school group, consisting of John Rand, Ralph Barker, John Duvall and Gail Anderson, entertained as a trombone quartet and were called back for encores.

After shooting the bear, Cunningham obtained the assistance of Mr. Taylor, Sam Standley and Archie Moore to help him get the carcass out of the woods and to his home at Upper Camas.

When you pay your telephone bill, about 28 cents of each dollar goes for taxes.

How much tax in your telephone bill?

When you pay your telephone bill each month, an important part of your money is passed on in taxes to the Federal Government and to state, county and city governments. Naturally, we expect to contribute our fair share of the cost of government. . . but because taxes now account for such a large portion of the cost of service, we feel we should report about them to you who, as telephone customers, have to pay them.

Your telephone is taxed in two ways: One, through the operating taxes we pay to run the business—income taxes, property taxes and the like. In 1951 these came to \$81 million for Pacific Telephone, an all-time high. Two, by Federal excise levies you pay on local and long distance service. Last year we collected more than \$70 million in excise taxes from our customers and turned it over to the Bureau of Internal Revenue.

Your telephone is one of today's best bargains

TAXES \$2.92 PER MONTH PER TELEPHONE

In spite of sharp increases in taxes, wages, materials and other costs of providing service, we've been able to hold down the prices you pay for service. . . hold them so low, in fact, that the telephone today is one of the best buys in any budget.
