

SENATE VOTES CUT IN FOREIGN AID MONEY

Presbyterians Will Ordain Lowell M. Campbell Into Ministry At Church Sunday

Lowell McAfee Campbell, son of Mr. and Mrs. W. M. Campbell of Roseburg, will be ordained into the ministry at a special ceremony Sunday, June 1, at 7:30 p.m. at the Presbyterian Church in Roseburg.

Campbell was examined before the Presbytery of Southwestern Oregon at Bethany Presbyterian Church in Grants Pass Tuesday.

Rev. Kenneth L. Stafford, Lakeview, moderator of the Presbytery, will preside at Sunday's ordination ceremony. Rev. Paul S. Kelish, pastor of Central Presbyterian Church, Eugene, will deliver the sermon; Dr. John Howard, of Olivet Presbyterian Church, Glendale, will give the prayer.

The scripture reading will be given by M. W. Campbell, father of Lowell. The moderator will then present the questions and Dr. Morris Roach, pastor of the Roseburg Church, will give the charge. Dr. Norman K. Tully, First Presbyterian Church, Jacksonville, will give the ordination prayer, and Campbell will give the benediction.

Born and reared in Roseburg, Campbell entered the University of Oregon, and after three years of army service during the war, in which he engaged in active service in the European theater, he returned to obtain his degree from the liberal arts school of the University. On May 8, he was graduated from McCormick Theological Seminary of Chicago, after three years attendance.

He will leave June 8 for St. Lawrence Island in the Bering Sea, where he will be stationed at the Eskimo village of Gambell, where the air force has an installation. He will be on a three-year assignment with the Presbyterian church, but by special arrangement will also be working with the air force personnel.

Douglas Primary Vote 55 Pct. Of Registration

Only 55 per cent of Douglas County voters went to the polls at the recent primary election, reports Charles Doerner, deputy county clerk.

The total number of votes cast was 12,936, which is an actual count for all precincts except North Myrtle, in which the vote was estimated.

Total registration is 23,815. The report was not tabulated to show the voting percentage of each party, but Republicans produced considerably more strength at the polls than Democrats, returns indicate, although registration between parties is nearly equal, with Republicans having a slight lead.

Fair Weather Promised For Weekend Vacations

PORTLAND — Those planning week end vacations in connection with Memorial Day can expect generally fair weather in Oregon.

Eastern Oregon will have a few scattered showers Friday, the Weather Bureau reported, and the coast will have night and morning clouds.

Temperatures will tend to rise and the weather to become increasingly fair by Saturday.

TITLE SUIT FILED

Suit to quiet title on property west of Drain has been filed in Circuit Court by five persons against A. P. Johnson and others. Plaintiffs are W. H. Gonyea, D. A. Gonyea, J. H. Gonyea, Foster Anderson and A. N. Pritzker.

In the Day's News

By FRANK JENKINS

The news as this is written is mixed—bad and worse. Not much that is good.

In Korea, we've been marking time for the better part of a year, trying to get a truce. The net result of it, General Ridgway told us a few days ago, is that the communists we're fighting there have GREATLY INCREASED their military strength.

We can't hope now to drive them out of Korea. The best we can expect is to hold our lines if they attack us.

General Ridgway arrives in Paris to take command of NATO military forces which haven't been created yet. The purpose of these forces is to defend Western Europe against Russian aggression. He signifies, as General Eisenhower has, the protective might of America, which is accepting the role of leader in the battle to save Western civilization.

When he lands at Orly airport, the field is black with French police assembled there to snuff out any communist demonstration.

Co-operative Plywood Project Launched

Taking Over Of Mar-Linn Plant Is Aim

Promoters Incorporate
For \$1 Million Capital
For Winchester Work

The Winchester Plywood Association filed articles of incorporation at Salem Wednesday. The association, with headquarters at Winchester, lists capital stock worth one million dollars, divided into 200 shares at \$5,000 each.

The incorporators are listed as E. O. McClintock, Everett A. Fah, both of Portland; Clarence L. Rothrock, M. M. Rucka, Jesse W. Howard and Ray Austin, Roseburg.

McClintock, contacted yesterday, said the corporation will be a co-operative formed to purchase the Mar-Linn Timber Corp., which has been idled following a close-down earlier this year.

Under the cooperative plan, all employees would own stock in the corporation, on a basis of an original investment of \$3,000 and a working interest of \$50 a month for the remainder up to \$5,000, after he operation begins, said McClintock.

All former employees of the plant will be given an opportunity to join the cooperative, said McClintock. A meeting was held last Sunday to get an expression on the proposal from the employees.

Those listed as incorporators were elected to serve as a temporary board of directors until incorporation could be completed. This cannot take place until 100 shares have been sold or \$400,000 has been raised by the corporation, whichever comes first, according to McClintock.

All money paid for shares, he said, will be placed in escrow with a local bank until the required amount to complete the corporation is raised. None can be spent until the permanent organization is established, and permanent directors are elected.

In event the required amount is not raised, the money will be returned in full to the stockholders, he emphasized.

McClintock, who is moving to Roseburg to make his home, said he has hopes the corporation can be completed and operations begun within 60 days. All policies, improvements or changes in production plans will have to come from the permanent board of directors, he said. However, the plant is in shape to be put into operation with a minimum of delay.

Both McClintock and Fah, who is also moving to Roseburg, are at present stockholders in the Linton Plywood Association, a cooperative in Portland.

Gasoline Restrictions
On Air Service Ended

WASHINGTON — Airline travel and other private flying can zoom back to normal at 3:01 eastern standard time next Tuesday morning.

Secretary of the Interior Oscar Chapman made this possible Wednesday night when he signed an order lifting restrictions at that time on the amount of gasoline commercial and sports flying could use.

The restrictions resulted from a strike by 90,000 oil workers. The effects of the strike have eased as the result of individual settlements in the industry.

New Price Ceilings To Have
Little Effect On Consumer,
Food Industry Heads Assert

WASHINGTON — Retail grocers Thursday began computing new price ceilings on hundreds of food items based on government approval of higher profit margin for the industry.

The new ceilings can go into effect Monday. The Office of Price Stabilization (OPS) issued an order Wednesday night authorizing increases ranging up to 25 per cent in the mark-ups retail food stores can apply to their costs. OPS said this averages about a penny an item on the selected list of foods affected.

Price Stabilizer Ellis Arnall estimated the margin hikes will increase food costs to the public by from 100 million to 150 million dollars a year.

He said a minimum of 100 millions is needed by the industry to assure fair and equitable earnings under the law and pricing standards.

Industry's Idea Differs

There was a sharp difference of opinion between Arnall and his price agency officials on one hand,

and industry spokesmen on the other, over the effect the adjustments will have on over-the-counter food costs.

Industry spokesmen said "The truth is, the adjustments being made by OPS and the adjustments sought by the grocers will have little effect on prices."

They added that if the industry got all the relief asked and could put new prices into effect the cost of food to consumers would go up "only about five cents per week per person."

Arnall said that translated into dollars this means the industry would like to have increases totaling about 405 million dollars a year compared with the 100 million OPS estimates grocers will realize from the higher margin.

OH YOU WIVES!

Doll Up To Hold Friend Hubby, Cleric Declares

LONDON — American women doll up so much — take it from an English clergyman — because they're worried all the time about losing their husbands.

That, Canon Hugh C. Warner told the Royal Commission on Marriage and Divorce Wednesday, is one bad effect of easy divorce laws.

"As far as my information goes about America, one quite clear result has happened—it has caused a grave and constant worry all the time that the marriage will suddenly break up," Warner reported, adding:

"The modern American wife tends to feel she must wake up early in the morning to get her paint and powder on before her husband wakes. Otherwise she feels she may not have him by the evening."

Boys Sue To Keep Found Fortune

PORTLAND — Legal steps were taken Wednesday to claim for three boys \$2,180 they found floating in a fish pond in Portland last week.

Attorney William J. Crawford filed suit in Circuit Court seeking the money for Lynn Edwin Hill, Myron Ward Whitcomb and Melvin LeRoy Weaver. They found the package floating in the pond, fished it out and found the money in \$5, \$10 and \$20 bills.

The three turned it over to sheriff's deputies.

Coroner F. Floyd South asked Sheriff Terry Schunk to turn the money over to him because he believed it belonged to James Stevens, 71, a recluse who had lived nearby. Stevens died last February, and South is administrator of his estate.

Schunk said he would keep the money until a court determined what he should do with it. Meanwhile he planned to give certificates to the three boys for their honesty.

Attorney Crawford argued the original owner and loser of the money was unknown so the boys should have it.

Senate Committee Votes Extended Life For RFC

WASHINGTON — The Senate Banking Committee voted 6-to-3 Thursday to keep the Reconstruction Finance Corporation (RFC) in business as the government's chief lending agency.

But it decided to write a number of reforms in the law setting up the RFC.

Earlier this year the Senate had voted to abolish the scandal-stained agency, but it reconsidered and sent the question back to the banking committee for more study.

The Senate had substituted the end-RFC proposal for a reform bill sponsored by Sen. Fulbright (D-Ark.).

The banking committee Thursday reinstated Fulbright's reform proposal and sent that measure to the Senate floor.

Friends of the reform plan concede that prospects are none too bright that the reform measures will be brought to a Senate vote again.

For one thing, they are wary of another attempt to substitute an abolition measure on the floor.

Damage Action Verdict
Favors Defendant

A Circuit Court jury Wednesday returned a verdict in favor of defendant Robert J. Doty in a suit brought against him by Ila R. Allen.

Mrs. Allen had asked \$550 general and \$5,000 punitive damages from Doty, operator of Bob's Music Shop. The plaintiff alleged Doty had taken and "converted to his own use" a public address system belonging to Mrs. Allen.

Atomic Fund Boost Asked By President

WASHINGTON — President Truman asked Congress Thursday for \$3,341,000,000 for a "major further expansion" of atomic production facilities. But he did not disclose details.

The money in the form of a supplemental appropriation, would go to the Atomic Energy Commission and the Tennessee Valley Authority.

Truman said, in a letter to House Speaker Rayburn, the expansion is necessitated by the fact that "the Soviet Union has shown no disposition to cooperate in an international program for control and regulation of armaments."

Lacking international control of atomic energy, he added, "the national security and the security of the free world demand that we maintain and increase our leadership in this field."

Hydrogen Bomb Included

Of top priority among the new uses is the hydrogen bomb, which some scientists have estimated is potentially as much as 1,000 times as powerful as the uranium A-bomb.

President Truman, in a separate letter to Sen. Maybank, D-S.C., chairman of a Senate Appropriations subcommittee which handles atomic energy funds, wrote that America must continue its efforts to buttress its security, and added:

"Not to do so invites disaster." Without going into detail, the President said the expansion plan was based on recommendations of a special committee of the National Security Council, which received advice from the military chiefs of staff.

Logging Operator Fined For Lack Of Watchman

A Myrtle Creek logging operator was fined \$25 Wednesday by Justice of Peace Nina Pietzold of Canyonville for violating a regulation requiring a watchman to remain on a logging operation three hours after it was closed down.

The fine was levied on Jim Heath of Heath Brothers operation as result of an investigation of a weekend fire which burned over 35 acres of timber land on Canyonville Mountain.

Harold Tonole, state forest inspector for the south Douglas district, discovered in the course of his investigation of the blaze that the regulation requiring a watchman had not been followed. Cause of the fire is still unknown.

Tonole warned other logging operators of the "toughening up" of his organization this season and said there will be rigid enforcement of all regulations to prevent a recurrence of the bad fires of last year.

"If operators are not in compliance with the regulations at the time of inspection they will be closed down," he said. "And second offenses mean arrests."

Operators who are not sure of the requirements should check with the office of the Douglas Forest Protective Association, he said.

Crash Kills Gen. Tyrer Of Air Defense In Japan

TOKYO — Brig. Gen. Aaron W. Tyrer, vice commander of the Japan Air Defense Force and a twice-wounded veteran of World War II, was killed Wednesday in a jet crash.

The Air Force jet crashed shortly after takeoff, clipped the tops of two small buildings, crashed and burned in a rice paddy.

Killed with Tyrer was Capt. E. R. Crane of Wichita, Kas., a veteran fighter pilot with 169 missions.

Red Prisoners On Kije Stage Fresh Uprising

KOJE Island, Korea — Allied troops with bayonets and tear gas squelched a Red prisoner uprising Thursday without bloodshed, but a prisoner later was killed by the accidental discharge of a guard's rifle.

Steel helmeted U. S. infantry men with bayonets barged into a compound and dispersed Red prisoners who were trying to cut a new gate in an inner barbed wire fence.

Behind this flying wedge of about 50 soldiers, more than 50 British troops moved in and demolished a Red command post and a dispensary. Prisoners jeered the British at their task but did not attack.

The Reds apparently staged the disturbance in an attempt to force Brig. Gen. Haydon L. Boatner, camp commander, to visit the compound and confer with them, a camp spokesman said.

The spokesman added that Boatner received "a long, abusive, insulting, demanding letter" from the compound leader two days ago.

The General never answered it because the letter violated Boatner's rules that messages to him from POWs must be "brief, courteous and to the point."

Ham Blamed For Food Poisoning At Banquet

PORTLAND — The State Board of Health Wednesday blamed baked ham for the food poisoning of 150 persons at a church banquet in Grants Pass May 13.

None of the ham was left for examination, but Dr. Samuel Osgood, state epidemiologist, said, "we believe the ham was the most probable cause, and contamination probably occurred during or immediately following slicing, with about three hours of incubation before consumption."

No one died from the poisoning, but all but 30 of the persons at a mother-daughter banquet suffered pains, and some were hospitalized.

Plunge Of Streetcar In Spain Takes 30 Lives

MADRID, Spain — An overcrowded streetcar plunged 85 feet off the historic Toledo bridge here Wednesday night and carried at least 30 persons to their death on the river bank below. Some 50 persons were seriously injured.

The streetcar, which had a normal capacity of 48, had been jammed with at least 100 persons. Its brakes gave way as it moved down a 600-foot incline, and it crashed through the railing of the 230-year-old bridge.

Oregon Teamsters' Strike Plan Canceled

PORTLAND — The AFL Teamsters Union Wednesday postponed a strike that would have idled big, over-the-road freight trucks in Oregon Saturday.

A spokesman said international headquarters of the union had ordered Oregon locals to continue work and negotiations. The spokesman said this meant Oregon drivers would not strike at midnight Friday, as scheduled earlier.

The dispute is between the union and the Truck Operators League of Oregon, representing 33 firms in the league plus independent firms which tie themselves to the negotiations.

Entire \$75,000 Gift Farm To Be Created In 17 Hours For War Veteran, Family

MOSES LAKE, Wash. — An army of workers swarmed over a rough and dusty piece of land near here at 12:01 Thursday morning to turn it into a going farm in less than 17 hours.

Their \$75,000 farm-in-a-day symbolizes the coming of irrigation water to the first of a million acres of fertile sagebrush land in the Columbia River basin.

At 12:01, a rocket bomb signaled the start of the operation. Floodlights went on and workmen with center beams and studding for a modern seven-room farmhouse moved into action.

If everything goes on schedule, Donald Dunn, his wife and two daughters will receive the keys to their new farm home, equipped with sprinkler irrigation, cows, chickens, barns and even a full icebox, at 4:30 Thursday afternoon.

At the same time, Reclamation Commissioner Michael Straus will preside over the ceremony of turning the irrigation water from a lateral of the huge Columbia Basin irrigation network onto Dunn's farm.

Dunn won't have to pay a penny for the farm. A war veteran, he was flooded out of his Marion, Kansas, farm last summer and was chosen by the Veterans of Foreign Wars as the most worthy to receive the 110-acre farm.

All the materials and labor were donated. Fifty-five building contractors sent men to build the house, machine shed, cattle shed and chicken house.

There's just one possible hitch in all the plans. Mrs. Dunn might not be able to spend the first night in their new home because she is expecting a baby any day, perhaps Thursday.

French Reds' Leader Jailed During Chaos

Bloody Outbreak Occurs
In Various Large Cities
Over Ridgway's Arrival

By PRESTON GROVER

PARIS — Jacques Duclos, now France's top Communist, was charged Thursday with carrying a gun during a bloody demonstration against Gen. Matthew B. Ridgway and was jailed to await trial.

Interior Minister Charles Brune declared the government had uncovered proof of an "organized and permanent conspiracy by the Communist troops" against the French state during Wednesday night's clashes.

One Communist was killed and 17 badly hurt and 200 police injured in Paris. Twenty-five more persons were injured at Nice.

Nine hundred or more Communists were arrested here and in French cities during demonstrations against the new NATO general.

Police began a broadening crackdown on the Communists Thursday and seized many editions of Communist newspapers throughout the country.

The Reds struck back in Marseille where they seized and burned bundles of non-Communist newspapers.

Caught With Evidence

Workers downed tools in several factories in the region of Tarbes, home district of Duclos, and new demonstrations broke out in Marseille, Melun and other places in protest against the Communist chiefs' arrest.

Duclos, a member of Parliament and the party's secretary general, was nabbed at the height of the rioting in an automobile in which police said they found a loaded revolver, a blackjack, two carrier pigeons and a radio geared to intercept police orders.

The French cabinet, at a meeting, decided to leave the question up to the National Assembly whether Duclos should actually be tried.

As a member of Parliament, Duclos normally would have immunity from arrest.

The law provides, however, that this immunity does not apply if the legislator is apprehended flagrante delicto — caught in the act.

Drunken Driver Draws \$500 Fine, Jail Stretch

The self-admitted driver of the car which sped through several private yards on Sweetbriar Lane Tuesday night, was fined \$500 and given 45 days in jail Wednesday after pleading guilty to drunk driving.

Judge A. J. Geddes also recommended suspension of the defendant's driver's license for a year.

The court identified the man as Claude William Gregory, 25, of Sutherlin.

The car barely missed several houses, clipped two parked cars, scattered piles of lumber, downed three telephone poles and flipped through two fences before it finally stalled in a ditch in an open field, according to investigation by state police and a deputy sheriff.

Sum Exceeds Figure Given OK Of House

Bill Now Needs Accord
Of Conference; Truman
Loses On Amount Asked

WASHINGTON — The Senate has overwhelmingly passed a \$6,700,000,000 foreign aid bill but the mutual security program is almost sure to be cut further before any money actually becomes available.

The final Senate vote on passage Wednesday night was 84 to 10 with 39 Democrats and 25 Republicans joining in support of the measure to aid America's friends all over the world. Nine Republicans and one Democrat, Olin Johnston (SC), said "no."

But the bill now goes into conference with the House which voted last Friday, 245 to 110, to authorize the spending of \$6,163,000,000 in the fiscal year starting this July 1.

This \$37-million-dollar difference between the two branches means that an additional cut in the Senate total is almost inevitable.

Then, after the compromise authorization measure is passed, the lawmakers will get another crack at the program when an appropriations bill actually making the money available is debated.

Less than Truman Asked

President Truman asked for \$7,000,000,000, declaring this was the minimum needed for America's security. He has been sharply critical of the cuts voted by the House.

The bulk of the money in the authorization bill is for direct military assistance designed to equip the forces of American allies in Western Europe and elsewhere.

Eisenhower had advised Congress against any substantial reductions beyond the one billion dollars voted in Senate committee.

Sen. Robert A. Taft of Ohio, Eisenhower's leading opponent for the nomination, voted for all of the reductions proposed Wednesday.

Full Program For Memorial Day Planned

Closing of schools, most businesses and local industry will mark Memorial Day in Roseburg. Observances will take the form of a Memorial Day program at 9:30 a.m., DST, at the Veterans Hospital.

The program, sponsored by service organizations with A. E. Williams as general chairman, will be in three parts: the first assembly at the hospital grounds, a march to the Veterans Bridge for a brief ceremony, and conclusion at the Vets Cemetery and the placing of wreaths on the tomb of the Unknown Soldier.

Mayor Albert G. Flegel will be master of ceremonies for the opening program. After a brief welcome, there will be invocation by Dr. Morris Roach, introduction of officers of veterans' organizations, solo by Mr. Kellogg and salute to the flag by Boy Scouts.

Williams will read the orders of General Logan, followed by an address by Rev. Mr. Horner of Myrtle Creek, another solo by Mr. Kellogg and benediction by Rev. Alfred Tyson.

Led by the High School Band, a parade will form and march to the bridge, where there will be a band number, Navy Mothers' wreath ceremony, firing salute and taps.

The cemetery ceremony will include posting of colors, another number by the band, reading of history of the Unknown Soldier's tomb, placing of wreaths by Navy Mothers, DAV Auxiliary, American Legion Auxiliary, VFW Auxiliary, Gold Star Mothers, with prayer, firing salute and taps concluding the affair.

The News-Review, in keeping with its usual policy of observing nationally recognized holidays, will not publish on Memorial Day.

Monk Pleads Innocent To Charge Of Larceny

Frank Monk, Roseburg, pleaded innocent to larceny by embezzlement Wednesday in Circuit Court, thus making it likely that the state's case against him will come to trial during this term of court.

Monk denied embezzling some \$250 of Patrick Kelly VFW Post funds. He was found guilty by a jury in a trial in February, 1951, but the State Supreme Court reversed the conviction and ordered a new trial.

The grand jury meeting earlier this month, had re-indicted Monk on the charge.

Levity Fact Rant

By L. F. Reizenstein

With rampaging drunken drivers wrecking property hereabouts, one shudders at the thought that one such may sooner or later demolish our fragile and revered Olds Towne Hall.

Memorial Day
