Allies Hold Won Ground In Torrid Korean Battle

The stepped-up fighting broke out Saturday around Chorwon, 48 miles north of Seoul, when U. N. infantrymen captured two high points. The Reds have tried unsuccessfully every day since to knock the Allies back.

Both sides used tanks or self-propelled guns, artillery and mortars.

Rocky Mountain States Await Tourist Millions

DENVER — A flood of tourist gold — close to three quarters of a billion dollars — is expected to pour into the Rocky Mountain States before a summer's end.

It will be spent by an estimated 20 million persons from other states. That's close to five times the population of the seven states with their lofty peaks, summer glaciers and high altitude coolness.

Despite the bites chewed from income by taxes and high living costs, nearly all of the seven states covered in an Associated Press survey expect more pleasure-seeking visitors than ever.

An American Automobile Association director last week predicted

can vacationists will visit Colorado, Wyoming and New Mexico this summer alone.

The summer calendar is crowded with everything from greyhound racing to grand opera. But like the other states, scenery and high altitude coolness are the main attractions.
