Know your
OREGON MILK
CONTROL LAW

"Do you mean
to say that the
richness of our
milk is limited
by law?"

YES The Milk Administration, under the broad authority granted it by the Oregon Milk Control Law, sets limits on the richness of milk. It also sets the price you must pay for milk.

The limits differ somewhat in different parts of the state, but the principle is always the same. In Portland standard milk is limited to 3.8% butterfat. If any distributor should deliver richer milk he is required to charge two cents more. In Josephine and Jackson counties richer milk is more drastically discouraged. The moment a distributor goes above 3.4% butterfat he must charge his customers one cent more, and at 3.7% he must charge still another cent, and so on through several price ranges.

These regulations controlling the richness of milk make it impossible to give the consumer greater value for his money. At the same time, such restrictions increase farmer surpluses of butterfat.

Milk control holds down the richness of milk you can get for your money and reduces the market for the farmer's cream.

Send for this free booklet "You and your family are vitally concerned by anything that affects the milk supply of your community. Learn how Oregon Milk Control affects YOU! Write to Saleway Stores, 1139 S.E. Third, Portland 14, Ore.

The questions and answers below show other ways in which the Oregon Milk Control affects YOU.

- Does Milk Control set the price you must pay?
A. Yes. That is the purpose for which the law was designed. It sets floor prices, not ceiling prices.
- Does Milk Control discourage competitive distribution of milk?
A. Yes. No one can enter the milk business if the Administrator says such new competition might disturb existing distributors.
- Does the Oregon Milk Control Law regulate Sanitary conditions?
A. No. It has absolutely nothing to do with the sanitation, health inspection, cleanliness, or the purity of milk.
- Does Milk Control limit the supply of Grade A milk?
A. Yes. To sell Grade A milk for your use a farmer must first get permission from the Administrator. If he gets permission (and many do not), he is given a quota. If he produces more he must often sell the surplus at a lower price for cheese or other factory uses.
- Does Milk Control allow you a lower price when you carry milk home yourself?
A. No. You pay the higher costs of door-to-door delivery whether you use this service or not.
