Quit Korean War, Candidate Urges

PORTLAND (AP) — Mrs. Charlotta A. Bass, the first Negro woman ever to run for vice president of the U. S., criticized this country's foreign policy at a Progressive Party rally here Sunday night.

Mrs. Bass, one of the founders of the Progressives, said in an interview earlier that the U.S. should get out of the Korean War which she said was a "squabble between the Koreans."

"The time for us to act," she said, "is when the attack is at our borders, not 6,000 miles away."

On domestic issues she called for repeal of the Taft-Hartley labor law, abolition of sharecropping and enactment of a federal fair employment practices act.

Vincent Hallinan is the Progressive presidential candidate. He now is serving a six-month prison term for contempt of court for his conduct as defense attorney during the Harry Bridges perjury trial.

ANIMALS HIS FRIENDS

PORTLAND, Me. (AP) — Every week is Be Kind to Animals Week for Adolph B. (Junior) Bowens. And the feeling is mutual on the part of the animals.

"Junior has hauled skunks from tin cans and flushed 'em out of culverts without any odorous consequences. He has walked up to a bristling porcupine and tied a rope around its neck and led it away. He has worked for the Animal Refuge League since he graduated from high school three years ago.

He has turned his mother's turkey-farm home into a virtual menagerie. He keeps a raccoon, a pair of gray squirrels, a goat, a woodchuck, two dogs and two cats.

"I've been crazy about animals ever since I was big enough to walk," he said. "If people understood them there'd be no need for fear."

FRISKY GOLF BALL

ST. PAUL, Minn. (AP)—Everybody agreed that Ray Schmidt of Stillwater, Minn., had an unplayable lie Sunday in the Minnesota State Open Golf Tournament.

Schmidt hit a six iron over the 18th green, the ball struck a tree by the Somerset course swimming pool, fell to a walk around the pool and rolled into a corner in the women's shower room.

Know your OREGON MILK CONTROL LAW

What's that?

...you mean I must pay the same price for milk I carry home myself?

Yes Oregon Milk Control compels stores to charge as much for cash-and-carry milk as you pay for home delivery—a requirement in which Oregon stands almost alone among the 48 states.

Among cities of Portland's size or larger, 92% have lower prices for milk bought in stores, with an average saving of 1½ cents a quart. Portland is the only such city west of the Mississippi where store and delivered prices are the same. The six cities where store customers save most are:

New York City...4½c	Detroit.....2½c
Minneapolis.....4c	Chicago....2½c
Washington, D.C.,3c	Kansas City.2½c

(U.S. Dept. of Agriculture, May, 1951)

Oregon Milk Control has not permitted the consumer to benefit from such savings made possible by efficient distribution.

Lower store prices are possible in Portland, too

This fact was disclosed by Oregon State College's two investigations of distributing and retailing costs for the Milk Control authorities published in 1951 and 1952. These cost studies show:

1. Milk could have been profitably priced an average of two cents lower by half the stores surveyed (most of them independent stores) when supplied by half the wholesalers studied.

2. A four cent saving could actually have been passed on to consumers by Portland's most efficient independent store, supplied by Portland's most efficient wholesaler.

The questions and answers below show some other ways in which Oregon Milk Control affects YOU.

Q. Does Milk Control limit the richness of milk?

A. Yes. The richness (butterfat content) of milk sold in each price range is limited by the rulings of the Milk Administrator.

Q. Does Milk Control set the price you must pay?

A. Yes. That is the purpose for which the law was designed. It sets *floor* prices, not *ceiling* prices.

Q. Does Milk Control discourage competitive distribution of milk?

A. Yes. No one can enter the milk business if the Administrator says such new competition might disturb existing distributors.

Q. Does the Oregon Milk Control Law regulate Sanitary conditions?

A. No. It has absolutely nothing to do with the sanitation, health inspection, cleanliness, or the purity of milk.

Q. Does Milk Control limit the supply of Grade A milk?

A. Yes. To sell Grade A milk for your use a farmer must first get permission from the Administrator. If he gets permission (and many do not), he is given a quota. If he produces more he must often sell the surplus at a lower price for cheese or other factory uses.
