SPOT ADVICE

ICE CREAM--HOLIDAY OFFENDER

Ice Cream — that wonderful, tasty stuff — is a real holiday offender. With summer now on the calendar, many a mother will, for a moment or two, wish it had never been invented.

It needn't be too big a headache, really. Here are a few tips on how to keep the problem of Johnny-or-Susy-and-Scream Scone to a minimum.

As soon as the ice cream has stained the garment, wash off all of it that you can with a moist cloth. Use water only.

Later, when the garment has been taken off, soak it in clear water prior to washing.

Be sure, of course, that the stain has been completely washed out before ironing.

The above applies, of course, only to washable garments.

On dry-cleanable garments, leave the stain completely alone. Do not wipe or rub in any way. This merely works the stain into the fibers and makes it much more difficult to remove.

Bring that garment to us to be cleaned as soon after staining as practical. And, when you do, please tell us about the stain. Sometimes a stain is not easily seen, and unless told about it we might not employ the special "spot Digesting" techniques called for.
