of the County. Profit or no profit, some kind of dorm facilities will be provided, says Kummer. Planners intend to use the Navy quarter set now on the grounds for this purpose.

Now "in the black" financially speaking, the Fair gets funds from two sources other than the actual event intake—a special 1/4 mill county levy for the fairgrounds and the Oregon Racing Commission allotment.

The fair is the responsibility of the Douglas County Fair Board, the members of which were appointed three years ago by the County Court. Serving on the board are Jim Myers, Garden Valley, chairman; Ivan Pickens, 41 Fowler, secretary-treasurer; Homer Grow, 636 Cobb; and Cleo Tipton, Tipton Rd.

Further fair plans will be discussed at the Board's next regular meeting July 14 at the Courthouse. All meetings are open to the public.

Portland Plywood Mill To Build In Glendale

The Multnomah Plywood Co. of Portland has just completed arrangements to construct a plywood peeler mill in Glendale. Construction will begin immediately. The mill, when completed, will employ between 35 and 40 men. Plans are to make ply sheets at Glendale, shipping them to their plant at Portland for fabrication.

According to Mr. G. C. Studley, general manager of the Glendale Robert Dollar Mill, an agreement for exchange of timber has been entered into by the two firms, whereby the Multnomah Plywood Co. will purchase peeler logs from the Robert Dollar Co. and the latter will purchase saw logs from the former. Both firms have timber holdings in the West Fork area.

To facilitate logging of the West Fork area timber, Mr. Studley says a permit has just been procured to allow the building of access roads through O & C lands to company timber property there. The Robert Dollar Co. plans call for an all-weather logging road, with construction to be started immediately. The first logging job in the area, Mr. Studley states, will be to remove millions of feet of dead timber killed by insects and disease.

Massacre Guilt Laid To Russians

WASHINGTON (AP)—A congressional report Wednesday officially charges Russia with killing 15,000 Polish officers 12 years ago on a pattern duplicated by the Reds in Korea.

This, said Rep. O'Konski (R-Wis) was the unanimous verdict of a special House committee which heard 150 witnesses in this country and Europe while probing the 1940 massacre in Katyn Forest, near Smolensk, Russia.

Chairman Madden (D-Ind) told reporters he would present the report to the House later in the day. He said it includes recommendations for "appropriate action" against the Russians by the United Nations Assembly and the World Court and for international investigation of any other atrocities laid to the Russians.

O'Konski, a committee member, told a newsmen the report says that, at least two respects, Communist methods in Korea are an exact duplicate of practices uncovered in the Katyn massacre.

He said one was the method of killing the victims. The second, he said, was the "run-around" at the Panmunjom truce negotiations over the whereabouts of missing U. N. troops.

Soviet Accuses Nazis

The Polish officers disappeared in 1940 from Russian prison camps. Three years later German authorities discovered crude graves at Katyn Forest from which 4,258 bodies were exhumed.

The Nazis immediately claimed the Russians were responsible. Moscow replied that the Germans had killed the Poles after capturing the Smolensk area.

O'Konski said all of the committee's evidence confirmed Russian guilt. Witnesses included a former Polish soldier who appeared in a mask, to hide his identity, and who testified he saw some of the shootings.

The Polish officers had their hands tied in a distinctive manner behind their backs and most of them were shot in the head, O'Konski said this technique has been used against Americans in

screen the activities of an inner core of officials and staff members described as "either Communist or pro-Communist."

The subcommittee said that a group of persons operating within and about the IPR, including Lattimore and career diplomat John Carter Vincent, exerted a substantial influence on United States Far Eastern policy.

More specifically, the senators concluded that Lattimore and Vincent "were influential in bringing about a change in United States policy in 1945 favorable to the Chinese Communists."

Vincent formerly was chief of the State Department's Far Eastern division and now is the U.S. diplomatic agent in Tangier.

Auto Mechanics Win Pay Boost, Work Cut

ASTORIA (AP)—Astoria automobile mechanics have a 40-hour week and a six-cent hourly pay raise, won on the eve of a scheduled strike.

Mechanics had sought a pay raise of from \$1.89 an hour to \$2.10. The agreement gives the union a 40-hour week instead of a 43-hour week and a wage of \$1.95 an hour, effective July 1.

The 40-hour week was the principal request of the union. Operators had balked at the hours, stating that such a contract would force closure of garages all-day Saturday.

Whether garages will now close Saturday has not been announced.

The campers reported an overflow crowd which taxed to the utmost the facilities of Camp Myrtlewood. Bad weather also brought problems which kept adult sponsors on their toes, but most of those in attendance agreed that the inspiration and fellowship were well worth the trouble.

Transportation to the camp was furnished by the Rev. Mr. Scribner.
