Prof. Ridenour has recorded about 400 of the folk songs.

CONSCIENCE FORCES PAYOFF

OLNEY, Ill. (AP)—A former Olney resident returned to clear his conscience of a boyhood "debt." He found Richland County fair board officials and confessed he slipped into the fair many times without paying.

He peeled three dollars from his roll. The fair official told him to forget it—boys were expected to slip in.

They talked of old times and the man decided he slipped in more than \$3 worth. He peeled off another dollar. After more talk he added a fifth bill. The official gave up protesting and took the \$5, sending his visitor away happy.

Convention Seen As Smorgasbord; Chaos Prevails

Wilbur Peeble, the average American citizen, is attending the Republican National Convention. He gives first impression in the following letter to his wife.

By HAL BOYLE
CHICAGO (AP)—Dear Trellis Mae,

Well, Honey, the Republican convention menu right now is political smorgasbord.

It is a banquet of bitterness, cynicism, faith, platitudes, principles, hope, ambition, and yearning.

It is a reach for politicians to get the support of the right people, and a reach for the right people to settle on the right politician — one who can lead them to a rainbow victory after 20 years in the political dark.

I guess what everybody would like most here is a good dependable outta board. But in politics there doesn't seem to be any reliable compass, and if there is an ouija board in town the Democrats are saving it for their convention.

I can't decide yet whether this is actually a political convention, a college homecoming, or a civil war.

It is kind of all three rolled into one — with the candidates making faces at each other, and teen-age supporters running back and forth with rival banners and yelling "yea team."

The two biggest questions here are: (1) "Who ya for?" (2) "Who d'ya think'll really get in?"

SPEED KILLER NO. 1

Out of 35,000 lives lost in traffic accidents in 1950, 26,700 were sacrificed on the altar of carelessness. Speed—excessive, killing speed—accounted for nearly half that number. Speed, claiming 13,300 dead and 473,000 injured victims in a single year, is the nation's Killer No. 1.

While all traffic deaths declined from 1946 through 1949, even then fatalities on the open road kept creeping up. In 1950 a deadly spurt of speed accidents claimed 3,200 more victims in rural areas than it had the year before. Last year speed deaths again mounted.

Why do drivers race so heedlessly to destruction on the highway? Hardly to save time. Scorching at 70 is an invitation to disaster. Over any distance, 50 m.p.h. takes only a few minutes longer and offers a better chance of a safe arrival.

When you start out with your family or friends, discount speed before you take off. Give yourself and others in your car an extra margin of safety by leaving earlier and holding your speed within bounds. It's your responsibility to them and to others on the road.

Remember—more than one out of every three fatal accidents is due to speed.
