

Oregon's Acting Governor Appoints 32 To Explain 18 Measures On State Ballot

SALEM (AP)—Acting Gov. Paul Patterson announced the appointments Wednesday of 36 persons to prepare explanations of the 18 measures to be on Oregon's November election ballot.

A 1951 law provides that the Governor shall name two persons to explain each measure. Then the two must name a third person.

The explanations will be printed in the state Voter's Pamphlet, published by the secretary of state and sent to each registered voter. Those appointed by Patterson for each measure are:

Constitutional amendment to wind up World War I veterans bonus and loans — Kelly Owens and State Veterans Director W. F. Gaarenstroom, both of Salem.

Constitutional amendment to have superintendent of public instruction appointed by board of education — Mrs. Sara Knox, Oswego, and Ted Kirsch, Sitkum.

Constitutional amendment to let legislators serve from election day to start of session — Mrs. R. D. Barton, Salem, and Kelley Loe, Portland.

Constitutional amendment to let state emergency board make appropriations — Sen. Richard Neuberger, Portland, and Charles A. Sprague, Salem publisher.

Constitutional amendment to legalize defective bill titles — Irving Rand and Leo Smith, both Portland.

Constitutional amendment to let taxing units establish tax base — Mark Swearingen, Salem, and David B. Simpson, Portland.

Constitutional amendment to extend veterans farm and home loans to Korean War veterans — Kelly Owens, Salem, and E. L. Mikesell, Grants Pass.

Bill to create unified school districts — State Grange Master Elmer McClure, Portland, and Mrs. Helmer Lindstrom, Astoria.

Bill to allow construction of hospital for aged mental patients in Portland area — Tom Humphrey, Portland, and Walter W. R. May, Oswego.

Bill to increase truck taxes — Ellery M. Sills, Portland, and William Tugman, Eugene.

Bill to tax cigarettes 3 cents a package — James T. Marr and C. C. Chapman, both of Portland.

Bill to limit state property tax to 6 mills — Cecil W. Posey, Portland.

Slack Period In Employment Is Now Ended

The latter part of the month produced a let-down in employment totals as many woods operations were shut down by the rainfall that continued during the major portion of June. Weather conditions combined with the annual Fourth of July vacation period has produced a slack period that should be of a temporary nature only.

The beginning of a new benefit year has shown an increase in the number of new claims for unemployment insurance. These claims are based on earnings in employment subject to the Unemployment Compensation Law of 1951. Continued claims have dropped to a minimum as nearly all of the people in the labor market in the area are working.

At the present time, the labor supply is believed to be quite adequate. After the holiday season, and with the supposed improvement in the weather, a general shortage in all classifications is anticipated.

The string bean harvest is expected to start about the first of August. This crop has been delayed by the rains and there might be a shortage of pickers if school re-opens before the harvest is complete.

CONSTRUCTION crews are shown above hacking away at a big cut a mile south of Idelyd on a section of the new North Umpqua Highway. The project to pave and improve the road from Lone Rock Bridge to Rock Creek is scheduled to be completed by October. This view shows a section of the construction job looking west along the road. The \$267,000 project is being built by the Funderburk Construction Co. of Sutherlin. (Picture by Paul Jenkins).
