Experience says:

How Oregon Milk Control holds retail prices

up!

Under the present Oregon Milk Control Law the minimum retail price of the milk your child drinks is fixed by the Milk Administration. It is unlawful to sell milk below that fixed price.

The Milk Administrator prohibits passing on to you any savings from efficiency in wholesale distribution. Lower cash-and-carry store prices are also forbidden.

Thus many parents cannot afford all the milk their growing children need.

What Safeway Stands For

Safeway believes that the producer and consumer are harmed by milk regulations which fix prices of milk beyond the producer level. For example, price fixing at the retail level tends to reduce competition, create monopolies, and discourage modern economies in processing, packaging, and retailing milk. As a result

the price to the consumer is often higher than necessary resulting in reduced purchases, smaller consumption and disastrous milk surpluses.

When consumers pay cash for milk and carry it home from the store, they save the cost of home delivery and credit. Safeway believes the consumer is entitled to that saving.

It is Safeway policy neither to use milk as a "loss leader" nor to attempt to make an unwarranted profit on its sale.

The questions and answers below show some other ways in which Oregon Milk Control affects YOU.

Q. Does Milk Control discourage competitive distribution of milk?

A. YES. No one can enter the milk business if the Administrator says such new competition might disturb existing distributors.

Q. Does Milk Control limit the richness of milk?

A. YES. The richness (butterfat content) of milk sold in each price range is limited by the rulings of the Milk Administrator.

Q. Does the Oregon Milk Control Law regulate sanitary conditions?

A. NO. It has absolutely nothing to do with the sanitation, health inspection, cleanliness, or the purity of milk.

Q. Does Milk Control hold prices up?

A. YES. That is the purpose for which the law was designed. It sets floor prices, not ceiling prices.

Q. Does Milk Control allow you a lower price when you carry milk home yourself?

A. NO. You pay the higher costs of door-to-door delivery whether you use this service or not.

Q. Does Milk Control limit the supply of Grade A milk?

A. YES. To sell Grade A milk for your use a farmer must first get permission from the Administrator. If he gets permission (and many do not), he is given a quota. If he produces more he must often sell the surplus at a lower price for cheese or other factory uses.
