Joint Military Action To Guard Pacific Okayed

HONOLULU — Foreign ministers of the U.S., Australia and New Zealand launched Thursday the first formal peacetime system of military cooperation among the three nations.

However, they adopted a "go slow" policy on bringing other non-Communist Pacific nations into the security organization.

That would be premature, said a communique issued after they adjourned their three-day conference Wednesday night.

But they promised that other countries would be consulted closely through regular diplomatic channels.

The foreign minister of one interested nation not present, Joaquin Elizalde of the Philippines, said in Manila his country and Japan may join the ANZUS powers soon in a five-power conference to coordinate Pacific defense against Communism.

He did not say who would take the initiative.

Ambivalence, according to a modern psychiatric word book, is "contrasting emotions, such as

Electoral Vote Shifts In Sixteen States

WASHINGTON — The 1952 electoral vote will be different from 1948 in 16 states where the 1950 census necessitated a reapportionment of house seats due to population shifts.

Nine states lose 14 seats in all and seven states gain 14.

California gains seven seats for a total of 32 and Washington one, for a total of nine, while Oregon remains at six.

Most of the states losing seats are in the east and south.

The electoral vote of a state consists of one for each of its members in the House and Senate.

There are 531 electoral votes and 268 are needed to elect a president.
