Hobbyist Builds His Own 'Flying Saucers'

Binghamton, N.Y. — While most people are just talking about flying saucers, Vincent Georgeff is building 'em — at least in model form.

His models are disc-shaped with fins protruding from the top of the disc and landing gear on the bottom. Only he calls them flying planets.

Whether there are any flying saucers at present Georgeff doesn't know but he says he believes they are possible.

LOCAL NEWS
