Award Winner Becomes National Defense Bond Salesman

Humphrey Bogart, Academy Award winner, in a special motion picture trailer produced by Metro-Goldwyn-Mayer Studios, urges moviegoers in 18,000 motion picture theatres throughout the country to invest more in Series E United States Defense Bonds. The special Bogart trailer is the first of a series of releases by the five major newsreel companies as a contribution to the current Defense Bond campaign. Bogart was selected as the first top star personality in a series in which stars will speak up for Defense Bonds from motion picture screens at bi-monthly intervals during the year.

Yoncalla School To Open Sept. 8

The Yoncalla High School, Grade School and the Scotts Valley schools will open on Sept. 8 instead of Sept. 2, as previously announced, due to the failure of getting a new school bus in time.

The school bus will not be ready until Aug. 25. Mr. and Mrs. Wilbur Briner left Tuesday by plane for Lima, Ohio, to pick up the vehicle, but they will not have time enough to drive the bus across the United States by the original Sept. 2 opening date.

With the exception of one teacher rehired from last year, the high school will have an entirely new faculty. New principal and instructor will be Cloyce Avey from Stayton. Other teachers are Joan Cote of Portland, who will teach home economics and physical education; Charles Caley of Corvallis, shop; Tom Mason of California, coach; Charles Martin of Salem, music; Mrs. Lulu Henniman of Cherryville, English; and Mr. Moll of Corvallis, science.

Oil Field Flooded To Hike Production

CENTRALIA, Ill. — A new twist in oil production from a Southern Illinois field calls for building an artificial water system vast enough to supply a city of 200,000.

The Texas Co. hopes its 25-acre project, to be completed in 1953, will help force 500 million dollars worth of vital oil to the surface of the Lake Centralia field.

The water will be used to provide pressure in recovering oil which otherwise would be left underground after previously used methods were stopped as no longer economical. The Texas Co. says the field's life will be extended 20 years.

Five oil-bearing strata underlying 20,000 acres will be flooded. A Texas Co. spokesman estimated it would take 8,650,000,000 gallons of water to fill the space voided by oil and gas since the field's discovery in 1937.

Charles Darwin was born in 1809 and published the "Origin of Species" in 1859.
