Yankees Clinch 4th Straight Title With Win

Associated Press Sports Writer

World Series foes, for the first time in five years, will be well rested when the 1952 classic opens in Brooklyn next Wednesday.

The New York Yankees made that certain last night when they defeated the Philadelphia Athletics 5-2 in 11 innings to clinch their fourth straight American League flag and their 19th in the last 32 years. The Dodgers have been taking things easy since Tuesday when they nailed down the National League pennant.

Not since 1947 when the Yanks and Dodgers breezed home have pennant races in both leagues been decided before the final bell.

The Yanks tied a rare record in bagging their fourth straight championship. Only other teams to win four consecutive championships were John McGraw's Giants of 1924-25 and Joe McCarthy's Yankees of 1949-1950.

Billy Martin was the man of the hour for the Yanks. The scrappy infielder singled with the bases loaded and two out in the 11th to break a 2-2 tie that enabled the Yanks to take the marbles. A third run scored on an error.

The triumph gave the Yanks a three-game lead over the runner-up Indians and made it impossible for the Tribe to overhaul the Bombers as both teams have only two games left to play.

National Grid League Starts Play Sunday

NEW YORK (AP) — The sprawling National Football League opens its 33rd championship season Sunday in what Commissioner Bert Bell predicts will be "the closest race you could possibly have."

Opening day finds the Chicago Bears at Green Bay, Detroit at San Francisco, Los Angeles at Cleveland, New York at Dallas and Philadelphia at Pittsburgh. The Washington Redskins and the Chicago Cardinals will open their season in the Windy City on Monday night.

The 12 teams will play 72 games with the regular season ending on Dec. 14.

UO Gridders To Meet Nebraska '11' Tonight

PORTLAND (AP) — The University of Oregon, barely defeated 13-6 by UCLA in last week's opener, squares off against the Nebraska Cornhuskers in an intercollegiate football game here Saturday night.

Oregon is favored to win by a slight margin. But Bobby Reynolds, spectacular Nebraska half back, could find his way through the Oregon defense for a Husker win.

Fights Last Night

By The Associated Press

New York — Willie Troy, 154½, Washington, stopped Randy Sandy, 151½, New York, 101.

Agriculture Department Buys Oregon Turkeys

WASHINGTON (AP) — The Agriculture Department Friday bought 720,000 pounds of Oregon turkeys for the government's school lunch program.

This purchase, along with 1,290,000 pounds bought in California and 210,000 pounds in Texas, brought government purchases under a producer price support program to 3,257,000 pounds during the past month.

SC Runs Over Northwestern, 31-0, Friday

LOS ANGELES (AP) — It took Southern California's Trojans the better part of two football games to develop an offense, but they did Friday night and turned in their second rout of the season.

This one was at the expense of Northwestern University and the 31-0 victory was extra sweet because the Wildcats represent the Big Ten—the West's Rose Bowl nemesis.

Last week SC's 35-7 shellacking of Washington State could be credited largely on an alert defense, which made three touchdowns out of two interceptions and a punt return. The defense was alert Friday night too, but Troy showed it can also pass and run with the ball.

For three quarters it was a battle of two lines, with SC holding a 3-0 edge by virtue of a field goal in the second quarter after a touchdown drive was stopped on the 4-yard line.

Came the final stanza. It opened with SC on Northwestern's 1-yard line, fourth down. The Wildcats stiffened and held.

But the kickout was short and from the 22, Rudy Bukich fired a pass to rangy London Crow in the end zone.

Three minutes later Bukich connected again. This time it was Don Stillwell for 39 yards to Northwestern's 6. Bukich ran it across on the next play.

The fourth score, with four minutes still left in the game, came on George Timberlake's pass interception and 35 yard run.

Sutherland High School Boys Help Fight Grass Fire

By MRS. BRITTAIN SLACK

Sutherland firemen were called out Wednesday afternoon by a grass and brush fire on the hillside above Sixth Avenue. The fire threatened the homes of Mr. and Mrs. Wilbur Holcomb, Mr. and Mrs. Gourley, Mr. and Mrs. Dee Atterbury and was creeping toward the Oliver Eggleston home.

The fire also spread toward the high school building and the high school boys were released to help fight the fire. Had it not been for their help, the fire may have spread disastrously.

Friskies Visit

Fred Friskie and son, Douglas, were guests at the home of Mr. and Mrs. Homer Swindler, east of Sutherland.

Henry (Buddy) Parazo returned to Sutherland last Wednesday from Germany, where he has been stationed for the past 18 months. Buddy received his discharge, but is subject to call for the next five years. He is the son of Mr. and Mrs. Henry Parazo Sr., who live about five miles east of Sutherland.

Mr. and Mrs. Avex Miller and son of Warrenton, Ore., spent a couple of days in Sutherland last week, visiting with Mr. Miller's parents, Mr. and Mrs. George Green, and brother and family, Mr. and Mrs. Donald Green.

Dean Russell arrived in Sutherland last Wednesday from Korea, where he has been for the past 24 months. He has seen some very severe battles. Dean has received his discharge and accepted employment with Douglas Parazo. He commenced his duties right away.

Two Youths Enlist In USAF; Quota Full

Two men who enlisted in the U. S. Air Force Monday, have been accepted, according to Sgt. V. F. Nickell, recruiter.

Robert R. Smith, 19, of Glendale and Ernest O. Penry, 19, of Grants Pass enlisted in the Air Force for a period of four years, he said. They will go to Parks Air Force Base, Calif., for training.

The enlisted just one day before the Air Force temporarily closed the Oregon quota, he added. The October quota will be announced after the first of the month.

Federal Grants Totaled \$320,272 To Hospitals

The federal government has poured \$320,272 into Roseburg's two hospitals — Mercy and Douglas Community.

That's what a Federal Security Agency report, covering hospital programs financed under the 1944 Hill-Burton hospital survey and construction law, shows.

The government paid \$181,664 of the \$320,272 required for construction of the 43-bed Community Hospital here. The federal share of the \$115,823 47-bed addition to Mercy Hospital was \$138,608.

MONEY SUITS FILED

Suit has been filed in Circuit Court by P. F. Luby against Lorin A. Murphy for \$1,133.78 allegedly due on loans.

Lizette Smith has filed suit against Maude Leinem for \$144.65 auto accident damages.

Service Dedicating Revised Bible Version Will Climax Christian Education Week

Climaxing Christian Education Week, Sept. 28 to Oct. 5, many cooperating Roseburg churches will hold a Bible observance service Tuesday, Sept. 30, at 8 p.m. in the First Baptist Church.

The public is invited to attend this service dedicating the publication of the now revised Standard Version of the Bible.

Dr. Victor P. Morris, dean of the business administration school of the University of Oregon and prominent church worker, will deliver the address. Five of the new Bible Scriptures will be presented to members of the observance according to the Roseburg Ministerial Association.

Cooperating in this service are the First Baptist, First Presbyterian, First Methodist, First Christian, Faith Lutheran and St. George's Episcopal Churches.

The third annual teachers' reception, to be held Sunday, Sept. 28, at 4 p.m., at St. George's Episcopal Church, will mark the opening day of Christian Education Week. Father Alfred Tyson will act as chairman of the committee with Dr. Morris as the First Presbyterian and Rev. Meredith Groves First Methodist, assisting.

Sunday, Oct. 5, will bring to a close the services of Christian Education Week with a world wide Communion.

Of Special Significance

Publication of the new revision of the Holy Scriptures, in the opinion of President Truman, gives this year's celebration of Christian Education Week "a special significance not only in the life of the churches but in the life of the entire English-speaking world."

Christian Education Week will be marked by observances in the churches and by people in hundreds of communities. They will emphasize in special services of dedication and thanksgiving the central place of the Bible in every spiritual movement of the Christian church and celebrate the publication of the Revised Standard Version of the Bible.

The President declared that "never has the world stood in greater need of the guidance of the Holy Spirit than now and seldom has the world been as eager to hear the word of God and to follow his guidance."

The climactic point of the Bible observance will be on Tuesday evening Sept. 30 when thousands of Christians will participate in simultaneous community services of dedication and thanksgiving. At that time the Revised Standard Version of the Bible first authorized revision in 51 years by the Protestant churches will be presented to the people.

On the previous evening, Sept. 29, the national capital observance in Washington, D.C., will bring together the leaders of both the churches and the national government.

In Roseburg observances the Revised Standard Version will be used in public services for the first time.

Arrangements have been made so that the first printing of the Revised Standard Version of the Bible will be used in public services for the first time.

Peterson, Saltonstall Campaign For GOPs

PORTLAND (AP) — Gov. Val Peterson of Nebraska and Sen. Leverett Saltonstall of Massachusetts will be in Oregon next week to campaign for the Republican ticket.

Peterson, here now, is to speak Saturday at Bend when the Republican State Central Committee meets to draw up final campaign plans. On Monday he is to speak at The Dalles and Beaverton; Tuesday at Canby and Tigard; Wednesday at Forest Grove and Lebanon, and Thursday he tentatively has scheduled talks at Springfield and Grants Pass.

Sen. Saltonstall is to talk at Scappoose, St. Helens, Rainier, Clatskanie and Astoria Thursday. He is to arrive at Astoria at 5:05 p.m. and leave at 5:10 p.m. and arrive at Eugene at 6:20 p.m.

Gard said the departure time from Eugene was indefinite as efforts were being made to have the general extend his stop there.

From Eugene, Eisenhower will go to Sacramento.

Final Testimony Taken In Freight Car Hearing

PORTLAND (AP) — Final testimony was taken here Friday in an Interstate Commerce Commission hearing on Oregon's freight car shortage.

Shippers testified during the three-day hearing that the Southern Pacific Company had failed to provide enough cars during 1950. The railroad contended the car shortage was nationwide and that it did the best it could.

Examiner O. L. Mohundro asked both sides to file written briefs. He will announce a decision later.

Expected Storm Moves North Into Washington

By The Associated Press

Light showers fell in sections of Oregon Friday night and early Saturday, but the Weather Bureau said a storm expected to bring additional rain has turned northward into Washington.

Showers were reported in Eastern Oregon, in the Willamette Valley and along the coast. This and the cool moist air from the ocean has reduced fire danger. But foresters report the woods still extremely dry.

Oregon's long dry spell resulted in postponement of the start of the deer hunting season from Oct. 1 to Oct. 4 and it may be delayed again unless the forests get a good soaking.

Too Much Gold Problem Facing Mint At Denver

DENVER (AP) — The problem of the U. S. mint's Denver branch really wouldn't perturb most of us. It's simply got too much gold.

There's nearly six billion dollars worth of gold stuffing vaults, says Gladys Morelock, mint director, said Saturday. That's figured at a 12-year supply—for the branch, that is—and it takes up too much room.

Mrs. Morelock mentioned—rather casually, and it's as well to be casual—around that much clover with absolutely no bites allowed—that the Denver mint is second only to Fort Knox, Ky., in the world gold storage picture. The Knox hoard is something around 12 to 15 billions.

The gold piled up, for one reason, according to the mint mistress, because it has not been refined for three years. Ironically, that was for lack of appropriations to run the refining machinery, and for another reason, experienced gold handlers had to be shifted to making silver coins to meet the big demand of recent years.

Mrs. Morelock figures that the best way to keep the building from bulging is to start refining gold again. Refining reduces the bulk and less space is needed for storage.

Too, all the refined gold will be of the same fineness. Unrefined gold isn't.

Mrs. Morelock estimates that the mint will refine one and a half million ounces of gold in the next year. At the purchase price of 35 bucks an ounce, that's \$52,500,000.

Fredrick Neal Passes Away In Eugene Friday

Fredrick Arlet Neal, 58, Reidsport, died Friday, Sept. 26, in the Sacred Heart Hospital in Eugene.

He was married Aug. 14, 1929, to Dorothy Garnet Klingler at Oakland. He was born in Wilbur Aug. 3, 1894. He was a member of the First Christian Church, IOOF and Rebekah Lodges.

Surviving are his widow, Dorothy, two sisters, Mrs. Arthur Longbreak of Sutherlin, Mrs. Orrie Perry of Springfield; three brothers, George of Glendale, Ernest of Chicago, and Bill of Shelton, Wash.

Funeral arrangements are not complete but the funeral will be held in Oakland according to relatives.

11 WORKERS KILLED

SANTIAGO, Chile (AP) — Eleven construction workers were killed yesterday in the collapse of scaffolding on a nearly-completed building in downtown Santiago. Seventeen other workmen were injured.

Injury Loss Greater In Sawmills Than Woods

(Continued from Page One)

ske pointed out. In 1950, 90 loggers were killed. In 1951, the number was 60 and this year "is showing even better," Gurske said.

Roseburg Earns Title

Douglas County's "timber capital of the world" title has merit, Gurske said. He revealed that 63 per cent of the men in the county are employed in the lumber industry.

Fatal claim costs are increasing in the state, Gurske said. In 1944 the average cost of a fatal claim was \$5,800, while today the average, including the claims of single men, is \$19,000. A widow with children can get as much as \$40,000 he pointed out.

Following Gurske's talk, Ray Martin, superintendent of Martin Box Co., Oakland, spoke on "Safety Is Good Business."

Losses Compared

He compared an industrial concern with the average home. If the housewife is injured, work must be taken over by an inefficient replacement and the budget is reduced to an inefficient rating due to rising costs, he explained.

"Business has the same problem," he said. If a man is injured a new man has to replace the lost worker, which results in decreased production and increased costs.

And Martin has figures to prove what he says. In the two years here, he has installed a working safety committee — half workers and half management.

The Martin Box accident frequency is only 4.6 per cent compared to the State Industrial average of 53 per cent, he stated. The Douglas County average is 128 per cent.

These figures are arrived at by multiplying the number of disabling injuries by one million and dividing by the number of hours on the monthly payroll.

Otto Harwig, consulting safety engineer, spoke on "Fifty Years of Safety," also.

W. O. "Bun" Kelsay, general chairman, introduced the speakers.

Who Gets Dollars Object Of Special Truman's Survey

WASHINGTON (AP) — President Truman Saturday directed the Federal Trade Commission to make a far-flung special investigation to see who gets how much of the dollars spent by consumers.

Truman said he particularly wants to know how much of each dollar spent for food and other farm products gets back to farmers; and how a wage increase affects labor costs, profits and prices.

In a letter to trade commission chairman James M. Mead, Truman asserted "the consumer has a right to know who is getting his dollar."

"When he pays a high price at the retail store how much of that price does the retailer get?" Truman asked.

"How much does the wholesaler get? How much goes for transportation?"

"How much did it cost the manufacturer to produce the product, and of those manufacturing costs, how much went to labor, to materials, to overhead and so forth?"

The President said that no comprehensive data on this subject ever has been prepared by a government agency.

But he insisted government "must have the facts if it is to deal intelligently and responsibly with the major interest groups in the country. We should have such information for all items important in the budgets of America's families."

The President wrote that he particularly wanted information on how much of each dollar spent for food and other farm products gets back to the farmers and how much goes to manufacturers and distributors.

Figures It's Lucky Day; Race Betting Pays Off

BATAVIA, N. Y. (AP) — Bob Defezze figured yesterday was his lucky day.

After all, his third child, a son, was born and it was his fourth wedding anniversary. Besides, it was his wife's 22nd birthday.

So he went to a harness race track last night and bet \$10 on a long shot combination in the daily double — Hildreth Hanover in the first and Merry Time in the second.

Both won, paying \$80.90 for \$2. He collected \$304.50.

Mayor Expresses 'Good Wishes' To Camp Fire Girls

Saluting Camp Fire Girls as tomorrow's good citizens and homemakers, Mayor Albert G. Flegel today gave his official good wishes for the success of Camp Fire's current Membership March.

During the march, which ends Nov. 30, Camp Fire Girls not only will add new girl members to their ranks, but will seek especially to enroll a sufficient number of women volunteers as leaders for all the seven-to-18-year-old girls who want to join.

"Camp Fire Girls have been an important part of our community for 26 years," Mayor Flegel said. "In that time they have done much to make Roseburg aware of their organization."

In the past year, in line with their motto "Give Service," these girls have worked as hospital aides, helped in church and PTA nurseries and been members of their school highway patrols. They distributed posters for the American Legion for that organization's "Go to Sunday School" campaign. They "stuffed" envelopes for last fall's Community Chest fund drive and distributed letters to parents and others urging them to actively participate in the drive so that Camp Fire and all Red Feather agencies might function effectively. Working with the Red Cross, Camp Fire Girls furnished decorations and holiday symbols throughout the year for local hospitals. In April they furnished over 80 dozen cookies for the Bloodmobile visit, besides acting as baby sitters and in the Bloodmobile canteen.

"We are proud of our Camp Fire Girls and we are grateful to the adult volunteers who make possible the Camp Fire program, Mayor Flegel said. "To them, especially, Roseburg owes a vote of thanks."

"Volunteering to lead a group of youngsters in a leisure-time activity such as Camp Fire is one of the finest ways that a woman can take part in the growth of her community. All of us have a responsibility for guiding our young people in growing up, but no one contributes more in time and effort in this joint community job than our Camp Fire volunteers," the Mayor concluded.

FBI Arrests Second Brink's Holdup Suspect

WASHINGTON (AP) — The FBI Saturday announced a second arrest in connection with the \$65,000 "out to lunch" robbery of a Brink's armored car last month.

The man was named as Charles Wesley Knight, 22, of Washington, a relief driver for Brink's since July.

The FBI said Knight admitted helping plan the hold theft in return for a 50-50 share on the loot.

The robbery occurred Aug. 25, when four guards of a Brink's truck left the car locked but unattended outside a Washington hotel while they went to lunch.

The next day, after a night-long grilling, Ray Eugene Farmer, 26, a former Brink's guard, admitted the theft. Farmer told police to a nearby amusement park where the entire \$65,000 was found buried.

Officials said today Knight apparently took no part in the affair outside of helping plan it.

UNTAGGED DEER CHARGE

Jasper Million Cash and Earl Smith, both of Oakland, were lodged in the county jail early today on charges of possession of untagged venison, state police reported.

JUDGE LEAVY DIES

TACOMA (AP) — Less than a month after his retirement because of ill health, Charles Henry Leavy, 68, federal judge for the western district of Washington, southern division, died in a hospital here Thursday.

YOUR BODY

ROSEBURG, OREGON — These health articles are written and paid for by Dr. B. A. SMITH, Chiropractic Physician, 1500

Garden Valley Road, in the interest of public health and to help you understand the body function. Look for these informative articles every Saturday.

Overweight is commonly caused by too much food and too little exercise, not as a rule by a glandular disorder as is so often believed. When food is consumed and not used immediately by the body, it is stored as fat in amounts which can easily become excessive. Normally, about 10 per cent of the body weight consists of fatty substances. Fat is present in the cells of every organ and tissue. In addition there are fat deposits inside the body. Most fat, however, is deposited under the skin. It is the average thickness of the fatty layer which determines whether a person is obese, thin or normal.

Fat distribution differs in the bodies of men and women. In women it is deposited mostly around the hips, lower abdomen, breasts, buttocks and upper part of the arms and legs. Fat in men is deposited mostly around the abdomen, shoulders and limbs.

Overweight is a serious liability to health. The danger of excessive weight increases with age and with the degree of overweight. A simple but impressive way of expressing this is the old adage: "For every inch by which a man's waist measure exceeds his chest measure, subtract two years from his life expectancy."
