Cultural And Economic Status Of Roseburg Credited To Churches

(Continued from Page One)

few murmurs of complaint. Human life demands, for its fullest development the exercise of the emotions through religious ethical and cultural activities. In this respect the people of Roseburg and Douglas county have planned well and, the results of this planning are evidenced in the fine commercial and industrial structures, successful business men and farmers coupled with the economic importance of Roseburg and other cities and towns in the county. Underlying all of this stability is the high moral standards, environment and major influences for right living that exists here. The churches of Roseburg and the county have been responsible for creating an environment conducive to right living. Church workers have cooperated with peace officers, civic service clubs and other community organizations to keep the area clean with no moral problems of a serious nature existing here. Roseburg and Douglas county churches, each having several affiliated church organizations, are the foundation for community life. They are the reservoir with a store of influence to ever fashion and guide the area's destinies. These churches are of various denominations creating a great field in which there is adequate room for every man, woman and child of Christian faith.

J. G. Carlson Passes Today After Sickness

J. Gillis Carlson, 60, resident of Winchester Street, died early this morning after a short illness. He was born Sept. 4, 1892 near Kalmars, Sweden, and came to the United States in 1910. He spent many years in the lumber industry and also farmed for eight years in Manitoba, Canada. He came to Roseburg in 1944. He was a member of the First Presbyterian Church.

California Democrats Have Registration Lead

SACRAMENTO, Calif. — An unprecedented 91 percent vote in California next Tuesday was predicted today by Secretary of State Frank M. Jordan. That would mean a turnout of nearly 5,998,300 for the presidential election. Jordan based his record-breaking figure chiefly on the fact that more people than ever before — 6,928,300 — are registered for the election. They include 3,312,668 Democrats and 2,455,713 Republicans, continuing the 3 to 2 Democratic edge of recent years.

Ferocious Dogs Slay Farmer In Mississippi

PHILADELPHIA, Miss. — Nine ferocious dogs attacked a 47-year-old Mississippi farmer and killed him. County Atty. Laurel Weir said "all the flesh was gone" from William Pierce's left arm when his body was found in a ditch near here. "All the toes were eaten off his right foot," Weir said. "Part of the flesh on his right arm was gone and also flesh from the lower part of both legs." The body was found Saturday. Sheriff Madison Spears said the family of the dead man "would be satisfied if the dogs were slain." The sheriff shot all nine dogs yesterday. At one time there were about 13,000 men named John Smith on the U.S. Veteran's Administration rolls.

Senator Guy Cordon Blasts Democratic Rule

(Continued from Page One)

"The American people have a right to ask why," I can tell you why. He is trying to take the attention of the American people off his record. And Stevenson must stand on that record. We were told that Stevenson would be his own man. But where did he turn for his support? Elaborating on the recognition of Russia and the "aftermath of that political blunder," Cordon spoke of Roosevelt's bargaining to bring Russia into the war in the Orient, "a war that already was won; a war in which Russia took part for just five days." He discussed the Yalta and Potsdam conferences in which Russia was given islands belonging to "our ally, Nationalist China," and permitted to occupy Manchuria. At Potsdam, Cordon said, "Truman gave Europe's breadbasket to Russia and left us the people and the scenery." "From what happened there," he added, "we can understand why Harry said, 'I like Old Joe.' "The only thing that Truman has ever proved is that anybody — anybody — can be elected President of the United States."

Truman Hits G.O.P. Lineup Of Senators

(Continued from Page One)

can "Murderers' row" of "character assassins." And Sen Robert A. Taft of Ohio, not Eisenhower, "will be president," in fact, Truman added. The 4,500-seat Gary Memorial Auditorium was packed to overflowing and hundreds of others listened outside as Truman asserted: "Does the Republican candidate really think he can tell Bob Taft what to do? I guess I know Bob Taft a lot better than he does. I've been fighting with Taft for seven years as president and for a good many years before that in the Senate. The candidate fought with Taft for only a month or two before the convention—and since the convention he has not even struggled. "Then look who would be standing behind Taft in a Republican congress. Reactionaries and character assassins and isolationists like McCarthy, Jenner, Bricker, Capehart and Kem would control the Senate. Reactionaries and isolationists like Martin, Allen, Hatcher, Taber and Hoffman would control the House of Representatives. "Shouts of 'Give 'em hell, Harry,' 'Pour it on' and 'Atta boy, Harry' punctuated Truman's talk in one of the most enthusiastic receptions of the campaign. Eisenhower, Truman said, is making "pretty promises," while asking that Taft be put "in control of Congress." "And Taft will be standing there" just like Horatius at the bridge ready to mow down any progressive legislative proposals," he said. "If you elect Eisenhower, Taft will be president—don't you worry about that."

ARCHERS TO MEET

George Foster, president of the Umpqua bowmen, reminds persons interested in archery that the club will start shooting Wednesday night at Benson school gymnasium. Junior archers start shooting at 8:30 and seniors begin at 7:45. This is the first indoor shooting of the fall season, and special targets have been set up at the gym.

Articles Filed

Articles of incorporation were filed Tuesday in Salem for the Umpqua Boat Club, by Eugene T. A. Stocker, L. L. Lombard and James A. Bradley. Planned is a pleasure boat moorage on the Umpqua River near Reedsport. Sugar is the largest dry cargo in international trade.

Central Douglas OEA Has Meet

School personnel met Thursday evening, Oct. 23, at the Junior High School and organized the Central Douglas County division of the O.E.A. Umpqua, Garden Valley, Roseburg, Glide, Roberts Creek, Lookingglass, and Green comprise this area.

Mrs. Vera Matthewman presided at the meeting. R. Barkhurst reviewed the progress made by the Southern Douglas County Unit and Keith Goldhammer talked on the influence of education upon future state, national and international situations. Those elected for the coming year are Allen Petersdorf, Green, president; Calvin Middleton, Glide, vice-president, and Evelyn Sutphin, Deer Creek, secretary-treasurer. Refreshments were served by Mrs. Pruitt, Mrs. Davis, and Mrs. Barkhurst.

Martha Doyle, Idleyid, Dies On 85th Birthday

Martha Ann Doyle, president of Idleyid Rt., died Monday on her 85th birthday. She had been ill for some time. She was born Oct. 27, 1867 in Rose Hill, Kas., and came to Roseburg 12 years ago. She was a member of the Baptist Church. Surviving are four sons: Orin C. and Fred C. Doyle, both of Glide; Frank C. Doyle, Seward, Neb.; Thomas C. Doyle, Portland; five daughters: Mrs. Mamie Rayburn, El Dorado, Ark.; Mrs. Bernice Beach and Mrs. Mable Prince, both of Roseburg; Mrs. Ollie Frerichs and Mrs. Myrtle Barteis, both of Portland; a brother, Bert Finney, Stengus, S.D.; a sister, Mrs. Blanche Pendleton, Wichita Kas.; nine grandchildren; 12 great-grandchildren and two great-great-grandchildren.

Headlights Necessary When Driving In Fog

Driving in fog requires use of headlights, not parking lights, Oregon drivers are reminded Friday by the secretary of state's office. The reminder came after safety officials noted return of foggy weather, particularly during morning and evening rush hours of traffic. In 1951, 1,297 accidents, seven of which were fatal, were reported as occurring in fog. The office said that use of parking lights for driving whenever visibility is 500 feet or less is an out-and-out violation of traffic law but in heavy fog their use also becomes an extremely dangerous practice. Switching to the low beam will reduce back-reflections from fog particles, safety officials said.

Attacks On U.S. Fliers Put City Out Of Bounds

WARRINGTON, Eng. — The U. S. Air Force has put the entire city of Manchester out of bounds for American airmen because of two recent gang attacks on U. S. Service personnel. Manchester, city of 735,000 and Britain's cotton capital, has been the scene of frequent Communist Party demonstrations against the stationing of American airmen in this country. There are 5,000 airmen at Burtonwood alone. Two weeks ago two Air Force MP's, armed only with billy clubs, were attacked by a gang of toughs with knives and razors and were badly beaten and cut. Last Friday two more MP's were similarly attacked. The Manchester police have made no arrests in connection with the assaults.

Oregon Prison Break Attempt Thwarted

(Continued from Page One)

The affair started when Guard Sgt. C. Watson saw, at 4:30 a.m., a man loose in the corridor of the segregation ward. Watson swiftly called four other inside guards from the floor above, and the five ran outside to make a quick check. Deputy Warden Lawrence O'Brien said that this then became the sequence of events: Although the guards didn't know it as they ran out into the fog, six men had gone through a window after springing the bars, and were waiting for them. Each guard was grabbed, threatened with knives and clubs, and bound with tape and torn-up sheets. Inside guards are not armed.

Electric Power Restriction Set

WASHINGTON — The Defense Electric Power Administration ordered effective Wednesday, certain restrictions on use of power in the Pacific Northwest to protect defense production in that area. The order prohibits electric utilities of the region—now undergoing a period of water shortage—from delivering power to any new customer using more than 50,000 kilowatt hours a week under any new contract entered into after Sept. 1, 1952. The agency said the order is not to be confused with a proposed order which, if issued, would impose general limitations on the use of electric power throughout the Pacific Northwest area affected by the water shortage. The latter order, the agency said, has not been issued and is still being considered in rough draft form by the electric utilities of the area. This is not expected to be issued unless water and weather conditions make it absolutely necessary, the agency said.

Ike Says Adlai Not Tough Enough For Reds

(Continued from Page One)

economic disaster at home." He charged: "The Truman administration has never found the way to create the conditions necessary for high employment in America without the prop of international conflict or international tensions. Inflation Fostered "One of the reasons why I became a candidate for political office was my deep faith and unalterable conviction that we can have prosperity in America without war." "The administration has deliberately fostered inflation, through every known device, in anticipation of a postwar deflation. How wrong they were: They theorized that a little inflation would be a good thing as they pursued policies which inevitably resulted in forcing up prices of things you buy. "For American wage earners, this has meant a treadmill prosperity, in which their gains have been canceled out by higher prices and higher taxes." He said he will "call a halt to these ruinous policies."

Roseburg High Students Vote

Students of Roseburg High School social studies department have the opportunity to vote today on the Nov. 4 issues. Through the cooperation of the county offices, the voting is being done on sample ballots with as near the actual voting situation as can be arranged in the classroom. The voters were registered in precincts (classrooms), and they voted in central polling places on the sample Australian type ballot. Election matters have been given considerable attention in the junior and senior social studies classrooms this fall, and students have a reasonable knowledge of the initiative and referendum issues, as well as the principal candidates. The classes participating are the 11th year U. S. history and government and the 12th year American Problems sections.

Oregon Woman, At 47, Great-Grandmother

PORTLAND — Mrs. Lee C. Jimison of Portland, only 47 years old, is a great grandmother. She was married at 13. Her daughter, Mrs. Vernie Small, also of Portland, was married at 13 too. Mrs. Small is a grandmother at 32. Mrs. Small's daughter, Mrs. Edgar Cox of Portland, waited until she was 15 before getting married. Her baby arrived when she was 16.

Reds Win Great Victory In Poland--No Opposition

WARSAW, Poland — Almost 100 per cent of the eligible voters turned out for a single-state election for this Communist-ruled nation's parliament, the press announced Monday. Some districts reported a 100 per cent turnout Sunday to vote for the National Front (Communist) ticket. There were no opposition candidates. The balloting approved lists of previously selected candidates, 425 SEJM (parliament) members and 194 deputy members. They will serve four years. It was the first SEJM chosen under Poland's new constitution, adopted three months ago. "Woman, 104, Doesn't 'Think F. D. R. Beatable'" SEATTLE — Mrs. Agatha Hamill, 105, filled out her Nov. 4 general election absentee ballot yesterday with the help of her son Arthur, 65, who guided her trembling fingers. When the frail, bedridden woman came to presidential choice, her son explained that Gen. Dwight D. Eisenhower was the Republican candidate and Gov. Adlai Stevenson the Democratic. "They don't think they can beat Franklin D. Roosevelt, do they?" she cut in. Which one she finally selected, of course, was secret.

Black Terrorists Slay White Man, 2 Servants

NAIROBI, Kenya — Anti-white Mau Mau terrorists backed a European farmer to death Monday night as he sat in the bathtub on his lonely farm 80 miles from Nairobi. His two young native servants also were murdered. Bowyer was the first white settler killed since the government of this British East African colony proclaimed a state of emergency and launched a troop-backed, colony-wide drive on the Mau Mau a week ago. The terrorist society has sworn to drive all white settlers from Kenya.

Presenting "PREMIUM TRACTION" "WINTER-TRED" CAMELBACK
ANOTHER PROGRESSIVE IMPROVEMENT
After years of careful development work involving 1439 tests in the "Lab" and on the road - The manufacturers have perfected a winter camelback which excels anything yet experienced.
Only Premium Traction combines all three of the features vital to winter safety: Specially shaped particles of hard wood! A controlled blend of walnut Shells! And our new, exclusive "FORMULA X3" ... a different kind of rubber specially compounded to g-r-i-p and hold on treacherous winter roads. The combined result is vastly superior winter traction.
10% to 30% MORE TRACTION than ordinary winter treads on snow-packed icy or wet pavements
DRIVE with CONFIDENCE!
Extra quantities of particles "shed" from the rubber to give a very rough texture with hundreds of extra gripping surfaces. And the special, exclusive "Formula X3" rubber helps to give still more traction on snow packed, icy or wet pavements.
Ask you Service Station operator about this new type of winter tread or stop in and see them at your earliest convenient time at "Stub" Parker's Tirecap Service.
