

PLEADS INNOCENT

James F. Hall, 37, Glide, Tuesday morning pleaded innocent to a charge of driving while under the influence of liquor placed against him Monday afternoon by Roseburg police, according to Municipal Judge Randolph Slocum. Hall was committed to the county jail in lieu of \$250 bail. Slocum set April 22 as date of trial.

Council Votes To Improve Terrace Avenue, Install Beulah's Addition Sewers

The Roseburg City Council Monday night voted to go ahead with plans to improve Terrace Avenue and for installation of sewers in a portion of Beulah's Addition. Plans and specifications on the two projects, filed with the council by City Engineer John Looney, were accepted, and the governmental body will give notification to residents of the work planned. Grading and paving of about 2 1/2 blocks of Terrace Avenue south of Lane Street will cost an estimated \$18,053.60, with \$4,945.60 coming from the city. Some members of the council expressed hope the city would not become embroiled in disagreement such as occurred several months ago in connection with similar work on Reservoir and Glenn streets. Indications are there will be much less difficulty in connection with the Terrace avenue job. The Beulah Addition sewer installation work will cost an estimated \$4,228 or an average of about \$350 per lot. Storm Sewer Work Due The council also adopted plans for extending a storm sewer on Lane Street at an estimated cost of \$2,214, which will be met entirely by the city. Approval of a school district plan for erecting a playshed at Rose School (on adjacent city property) was given by the council, if the school district will meet certain building specifications. A request for permission to cut additional streets for laying television cable was referred by Mayor Percy Croft to the street committee. Eugene Roelle, on behalf of Umpqua Radio & Television, made the request, covering several areas of the city. Work on laying the cable will have to await a committee report at the next council meeting. Reports Go To Committee Referred to the health and sanitation committee were two reports recommending condemnation of property. The city inspector, fire chief and board of appeals recommended an apartment house owned by Emma Bauer on the corner of Harvard Avenue and Ball Street be condemned. A recent fire did about \$1,400 damage to the place. A protest was registered on the basis that Mrs. Bauer did not intend to continue renting the property, but only wanted a place for herself to live. The condemnation was based on the premise it was to continue as an apartment and that necessary work to bring the place up to standard would be 7 per cent of the value of the property. The other condemnation recommendation had to do with property of Mrs. Emma Ohman, 320 W. Cass St. Petition from 24 residents on Ball Street north of Harvard that the street be widened was referred to the street committee and the city engineer. Ministers Protest A letter from the Roseburg Ministerial Assn. censuring the council's action on a liquor store site was read by Mayor Croft, then filed. At the last council session, the body gave its approval to a plan to move the state liquor store from Stephens Street to Rose Street, behind the new J. C. Penney building. The ministerial association passed a resolution in "strong opposition" to the council action. The letter said the association's action was unanimous. Pro-rated distribution of city boxing commission funds to veteran organizations was approved. The American Legion, Disabled American Veterans, Veterans of Foreign Wars and Spanish American War Veterans will divide \$1,200, according to the membership of the organization. Early Protest Heard One of two or three citizens attending the council session, Noble B. Goette, arose to protest a rumored move to install tennis courts in the area of Laurewood Park. He said a petition had been circulated in the area protesting such a move. But Mayor Croft said no petition had been presented and that he knew of no proposal for such a move. He said if and when such a proposal comes up or petitions are entered, they will be studied by the city park commission. Street Signs Approved The council approved the purchase of street signs along Harvard Avenue as far west as the city limits. The action came after a discussion on whether the signs might not have to be changed when the city planning commission completes work on plans for revamping the street system. That was solved, however, when the council agreed to have an ordinance prepared stipulating north and south streets be called "streets" and east and west

Does Bad Climate Cause Colds? No, colds occur in widely different climates at about the same season. They affect about the same percentage of people in one region as in another. Apparently the greatest contributing factor is the change to indoor crowding, especially in schools, during the winter months. Children acquire and transmit the disease more readily than adults. Your doctor can give you advice which will do much toward protecting you from colds. When your physician writes you a prescription, bring it to us for filling. MEKAY DRUG 221 NORTH JACKSON

Union Leader Resigns Over Roosevelt Deal

LOS ANGELES (AP) — The head of the big Los Angeles local of the AFL Retail Clerks Union has resigned from the National Democratic Party Advisory Council on the ground that there is a conspiracy "to wreck the name of Roosevelt." The resignation of Joseph T. DeSilva, secretary-treasurer of the local, followed the suggestion of Democratic National Chairman Stephen Mitchell that James Roosevelt withdraw from the 26th District congressional race in California. Roosevelt refused, saying the suggestion, if generally accepted, "would open the door to political blackmail." Mitchell said in a letter to Paul Ziffren, California Democratic national committeeman, that "I believe most Democrats would feel that the candidate would serve his party best by standing aside from election contests until personal problems are disposed of in the proper place." He said the party is not supporting Roosevelt or Rep. Robert Condon (D-Calif.). Rep. Condon was barred by the Atomic Energy Commission from a Nevada test last May 7. Mitchell's letter said a Senate-House committee, before which Condon had a hearing, has made no decision and the AEC has not lifted the ban. Condon, who has denied under oath that he had been involved in the ban "state political charges."

Sears Resigns Position As Counsel For Hearing

(Continued from Page One) mittee were disturbed too over reports that Sears had angled for the special counsel's post through members of Congress. As a result, Tuesday's closed door session of the subcommittee, said that Sen. Dirksen (R., Ill.), made the motion to accept Sears' resignation and that Sen. Symington (D-Mo.) seconded it. It was adopted without dissent. Last week it was Dirksen, Mundt said, who moved to appoint Sears and Symington who seconded the motion. Mundt said the subcommittee will start right in Wednesday morning with a renewed search for special counsel, interviewing one or more lawyers. He did not say who these were.

Former Roseburg Man Succumbs

Word has been received here of the death of Cole W. Owen Sunday at Portland's Emanuel Hospital following a brief illness. Owen was a resident and businessman of Roseburg for many years. He was born June 22, 1889, at Owen's Sound, Ontario, Can. He was a life member of Laurel Lodge No. 13, AF & AM, Roseburg. He is survived by his wife, Grace, Portland; two sons, Dale R., Roseburg, and Bryce, Los Alamos, N.M.; two brothers, Clifford and Howard, both of Vancouver, B. C.; two sisters, Mrs. R. A. Brown, Los Angeles, and Mrs. J. Kathleen Vancouver, B. C.; and five grandchildren. Funeral services will be held Thursday at 1 p.m. at the Little Chapel of the Chimes in Portland.

X-Ray Mobile Unit To Visit Camas Valley

By MRS. WM. CUNNINGHAM Mrs. Daisy Kirkendall and Mrs. Ruby Moore attended the planning meeting for chest X-ray unit held in Roseburg Thursday evening at the city hall. Plans were made for the mobile unit to visit Roseburg and vicinity in the near future. The unit will visit Camas Valley on May 25 from 11 a.m. to 7 p.m. All adults over 15 years of age may be X-rayed at that time. Teacher Absent Mrs. Jesse James, Camas Valley school teacher, has had to be absent from school for the past few days on account of the illness of her small daughter. Mr. and Mrs. William Cunningham and grandson, Charles, spent Sunday in Roseburg visiting at the home of Mr. and Mrs. Kenneth Thorne. The Thornes are former residents of Camas Valley. Mr. and Mrs. James Combs drove to North Bend on business Monday and returned the same day. Mrs. Ana Martindale is recuperating from the mumps.

CHICKENPOX FOR ALL

CONCORD, Mass. (AP) — A birth day party for the Glass triplets has been postponed a week—but it took six cases of chickenpox to do it. The party was to have been held Monday but the 4-year-old triplets—Nancy, Sally and Susan—were bedded with the disease. So were their twin sisters, Carol and Sandra, 6, and Linda, 2. streets be called "avenues." Noting that this was a part of the planning commission's overall plan, the council decided to take the action of preparing an ordinance putting it into effect now instead of at a later date. For example, Broccoli Lane may become "Broccoli Street." The names of streets would not be affected by the proposed ordinance, only the designation as "street" or "avenue." However, long-range plans of the planning commission do call for renaming some city streets to untangle such situations as having nine First streets (including First avenues and directional designations).

SWEESTAKES in shadow boxes was won by Mrs. Jack Westpakes with this exhibit. Mrs. Ollie C. Slonaker poses with the exhibit. (H. B. Carter Photo).

Camellia Show Here Successful

The Roseburg Woman's Club, a successful spring flower show behind it, is planning for a rose show to be held at the club May 28-29. Mrs. Kenneth Ford, chairman, termed the show on Friday and Saturday as "successful." She gave credit to many who helped put the show over. The event was nearly in the class of being a community enterprise. Thanks went out to, furniture stores for tables furnished for the setting contest; to a local music store for an organ; Mrs. Sam Warg, Ethel McInturn and Mrs. Paul Geddes for playing it; to three local nurseries who furnished flowers and shrubs to stage the show; to a bottling company for supplying equipment and a man to show a horticulture film; and to the award donors. Theme of the show was contained in a central garden—"The Magic of Spring" it was arranged by Mrs. O. D. McAllister, assistant chairman. The anniversary tables and stage arrangements were planned by Mrs. Harold Hoyt. Camellias featured the show. Presiding at an information table was Mrs. Foster Butler, where there were exhibited camellia seeds, slips, seedlings, species of camellias soil mixtures for seeds and slips. The complete list of winners follows: Horticultural (Camellias) Sweestakes — Finlandia Variegated, Mrs. Clarence Halopeter, Mrs. Ribben Winters. Te Deum show — Mrs. Ray Doerner, C. S. Sargent; Mr. Earl Wiley, Mrs. E. L. Paris. C. M. Hoover, Mrs. Kenneth Ford, Alba Superba — Mr. Archie Taylor, Black Prince — Mrs. J. M. Boyles, Grandiflora Rosa — Mr. Fred Herman, Mrs. D. L. Meyers, Parry — Mrs. Jersher, Scott, Chandleri Francine — Mrs. Leo Manly, Chandleri Elegans — Mrs. Ray Doerner, Hugh Hat — Mrs. Kenneth Ford, Maize Miller — Earl Wiley, Pink Perfection — Mrs. Ray Doerner, Mrs. E. L. Paris, Wavatah — Mrs. Kenneth Ford, Debutante — Earl Wiley, Caprice — Mrs. H. W. Mikkelson, Arzifiori — Mrs. E. L. Paris, Daisycreeper — Mrs. C. L. Spray, Valka de Nantes — Mrs. Bruce Elliott.

George Farrell Named City Manager Here

(Continued from Page One) there be a truly unanimous expression of feeling. Woodruff explained that he was not protesting the approval of Farrell, but merely what he believed was an inopportune time to act on such an important matter. Luma, however, felt two-weeks time should not be wasted. And, he explained, the absent councilman (Cecil Hugh, Rudolph Ritzman and W. J. Adair) had already given vocal approval of the city manager choice. Councilmen present, besides Luma, Woodruff and Saar, were Frank Ashley and Gordon Harness. The newly selected city manager has a long record in municipal work. He has been in his present job seven years. Before that he was city engineer of Hannibal, Mo., for 17 years. A graduate of the Missouri School of Mines, he is a member of the American Society of Civil Engineers, among other organizations. Two other manager applicants were interviewed by the council and Mayor Percy Croft before the final selection was made. They were W. O. Cuthbertson, city manager at Bend, and Frank A. Rody, administrative officer from Salt Lake City.

Pierre Du Pont, Famed Chemical Maker, Dies

(Continued from Page One) ica from France in 1798. His father, Lamont du Pont, was a noted inventor and authority on explosives who founded one of the nation's first dynamite plants, the Repauno Chemical Co. near Gibbstown, N. J. He was killed by an explosion of nitroglycerin when Pierre was 14. Pierre then took over the leadership of the family as the eldest of 11 children. A noted philanthropist who once built an \$800,000 hospital in memory of his chauffeur, Du Pont was a graduate of the Massachusetts Institute of Technology. Shortly after his graduation in 1890 he collaborated with a cousin in developing the first successful Du Pont smokeless powder. Under Pierre du Pont the company expanded from powder into a varied field of chemical products. It developed nylon, which revolutionized women's hosiery, cellophane and some 1,000 other products. Du Pont's sales exceeded a billion dollars a year. He is survived by his wife, three sons and three daughters.

Rites Scheduled For 16-Year-Old

Funeral services for David Elmer Gilstrap, 16, will be held in The Chapel of The Roses, Roseburg Funeral Home, Thursday, at 2 p.m. The Rev. Johnie P. Makinson of the Community Pentecostal Church of God will officiate. The youth was accidentally killed Sunday by a gunshot wound when his rifle discharged as he fell while hunting near Winchester. He was born May 12, 1937, in Archer City, Texas, and came to this community four years ago. He was a freshman in the Roseburg Senior High School. He is survived by his stepfather and mother, Mr. and Mrs. Homer (May) Pierce, Winchester; his father, Elmer Gilstrap, five sisters, Mrs. John (Dorothy) Rowland, Brawley, Calif.; Mrs. Buddy (Marie) Franks, Oakdale, Calif.; Mrs. Cecil (Vivian) Beal, Winchester; Betty Jo Gilstrap, Salem; Helen Joyce Gilstrap, Winchester; his grandfather, O. T. Dodson, Freewater, and his grandmother, Mrs. Stacey Dodson, Oakland. Interment will follow in the Civil Bend Cemetery.

Local Woman's Services Set

Funeral services for Stella L. Bayless, resident of S. Main Street, are scheduled Wednesday at 2 p.m. in The Chapel of The Roses, Roseburg Funeral Home. She died at her home Sunday. The Rev. Alfred S. Tyson of the St. George Episcopal Church, Roseburg, will officiate. The body will be taken to Eugene for cremation. She was born in Eureka, Ill., and made her home in Roseburg for the past seven years. Surviving are her husband, William H., Roseburg; and two sisters, Mrs. Grace Heister and Mrs. Clara Wood, both of Glide.

Former Drain Resident Dies in Jacksonville

Funeral services for a former Drain man, Dr. Stanley C. Peters, 82, were held at Medford Monday. Dr. Peters, a Jacksonville dentist, came to Drain in 1919. In 1923, he was married to Fay Montgomery in Roseburg. He went to Jacksonville in 1933. He was a member of the Ancient and Accepted Scottish Rite, Roseburg, and the Blue Lodge AF & AM, Drain.

What are the intrinsic advantages of the MICHELIN "METALIC" TIRE ADVANTAGES 1. SAFETY IN OPERATION: Elimination of blowout and bead failures. Excellent resistance to deep cuts. Rarefaction of ply separation and impact breaks. Better resistance to bruises. While sufficiently sharp objects can pierce METALIC Tires, ordinary punctures are greatly reduced. The protector—a standard feature in METALIC Tires, consisting of a heavy liner made of soft rubber cemented inside the casing provides added insurance against punctures, making flats exceedingly rare in operation. Thus with METALIC there is no longer the risk of costly road delays. Like any other tire, Michelin METALIC can be ruined by under-inflation, bleeding, bad rims or faulty mountings. 2. OPERATING TEMPERATURES: Michelin METALIC Tires operate under severe conditions at a temperature 20 to 25 degrees cooler than textile tires. This is due to the fewer plies flexing against each other, and to better heat dissipation because of thinner walls. "Hot Spots" are eliminated due to the heat conducting character of the steel cables, which render the temperature homogeneous throughout the carcass. 3. STEERING ABILITY: Excellent! This, combined with front wheel safety is a feature much appreciated by drivers of large buses or heavy log trucks. 4. FLEXIBILITY: The deflection of the METALIC Tire is superior to that of corresponding textile tires, because of its 2.4 (according to size) ply construction. Our LOAD INFLATION TABLE has been made out so that METALIC Tires, no matter what load they carry, will run with the same deflection, i. e., the one deemed to give the best running conditions, resulting in as even wear and high mileage. 5. RIMS AND TIRES: Michelin METALIC Tires fit standard rims. They use tubes of corresponding sizes, but their flaps are different due to their bead specifications. They are always supplied with special flaps and with a "protector". 6. BULKINESS: Using the same tubes, METALICS have the same inside bulk as textile tires. Yet, walls being thinner (fewer plies), the outside cross section is somewhat smaller. The loaded radius and the free radius are approximately the same as those of textile tires; the decrease in wall thickness being compensated by an increased thickness of the tread. They do not "grow" in operation.
