Bulletin Lashes Suspension Of Dr. Oppenheimer

CHICAGO (AP) — The Bulletin of the Atomic Scientists lashed out at the government's suspension of the security clearance of Dr. J. Robert Oppenheimer as "a breach of faith."

The Bulletin, sponsored by a number of scientists who pioneered development of the atomic bomb, took the unprecedented step of adding 16 pages to its May edition for a thorough discussion of the Oppenheimer case.

Nearly two score of Oppenheimer's colleagues or friends expressed faith in his integrity and loyalty.

Oppenheimer is chairman of the Bulletin's Board of Sponsors. Oppenheimer, who guided the work of scientists contributing to the development of the A-bomb, was denied further access to classified material on the ground he associated with Communists in the early days of World War II and later opposed development of the hydrogen bomb.

The Bulletin's editorial board said in an editorial:

"It seems to us a breach of faith on the part of the government to call upon a man to assume such heavy responsibilities in full knowledge of his life history and then, after he has demonstrably done his best and given the most valuable services to the nation to use the facts to cast aspersions on his integrity."

Albert Einstein commented that "the systematic and widespread attempt to destroy mutual trust and confidence constitutes the severest possible blow against society."

Visit Son — Mr. and Mrs. James Aiken Sr. have returned to their home in Westmoreland, Roseburg, following a trip to Monterey, Calif., where they spent three days visiting their son, Jerry, who is stationed at Fort Ord taking his basic training in the Army.

Visits Jobs Daughters — Mrs. Dorothy Crump, grand guardian of Job's Daughters, and Mrs. Avon Vert, past grand guardian, arrived in Roseburg Tuesday afternoon from Portland to install the new guardian councils for Bethel No. 42, Oakland, and Bethel No. 8, Roseburg, at the regular Job's Daughters meeting Tuesday evening. While here, they were guests of Mr. and Mrs. A. J. Young. Mrs. Young is a past grand guardian of Job's Daughters of Oregon.

Classes Explore — Roseburg High School biology classes of Glenn Brady and James Strassburg have made two trips by bus to Cape Arago and Sunset Beach to explore and examine sea anemones and other plant life at the beach. Students left early in the morning in order to catch the tide, taking their lunch and spending the day. Last Saturday 43 class members went and on a recent Sunday 80 students and instructors made the trip.
