

Belgrade Taxi Drivers Hope To Stay Non-Nationalized

BELGRADE, Yugoslavia — Belgrade's independent, non-nationalized taxi drivers are fighting a tooth-and-nail battle to stay that way. Their strange weapon: Keeping fares down.

3 Appropriation Bills Go To Ike

WASHINGTON — Hurrying to beat a midnight deadline, Congress Wednesday passed and sent to the White House the final three annual appropriations bills for the new fiscal year starting Thursday. The Senate completed action on the measures within an hour after the House had passed them. The three measures provide funds for the State, Justice and Commerce Departments; the Labor and Welfare Departments; and the judicial and legislative branches of government. The bills were compromises of different measures passed previously by the House and the Senate. They make these appropriations: Legislative Department, \$70,695,754; federal judiciary, \$27,501,749; Labor Department and Related agencies, \$311,784,500; Welfare Department, \$1,163,413,761; State Department, \$114,110,000; Justice Department, \$176,864,500; Commerce Department, \$837,022,000; U. S. Information Agency, \$77,114,000. The total of \$3,278,506,255 in the bills cleared Wednesday is approximately \$100,000,000 less than President Eisenhower requested last January.

The drivers, who jockey ancient rattletaps of many makes, are battling for survival against shiny new streamlined American cabs operated by a state-owned "enterprise." And the independents seem to be winning—by forcing their nationalized competitor to operate at a loss. The capitalist-Communist feud, unusual but not unique in Communist Yugoslavia, began six months ago when the enterprise launched a new, modernized taxi fleet. It sold all its old jalopies and imported 24 medium-priced American cars. The import duties and a complicated government tax called a "factor," each car cost about \$20,000, or a total of \$480,000 for the fleet. The enterprise had only \$70,000 in cash from the sale of its old cabs. It obtained a \$275,000 subsidy from the city of Belgrade, and borrowed the balance of \$135,000. Now, reports Belgrade's Evening News, the enterprise is in "serious financial trouble." It can't pay off its debt. It can't get additional subsidy. Officers say it needs to double fares to meet current expenses alone. That's where the independents come in. Higher fares, they say, would put everybody out of business, including the enterprise. Even the present fare (25 cents a mile), say the independents, is too high for the average passenger. They blame the situation on excessive taxation. This leaves the enterprise on the brink of disaster, and the independents know it.
