Septic Tank Owners Take Notice

Home owners have discovered that septic tanks stop-and-overflow. Two reasons are—first, because the tanks are not cleaned at proper intervals; secondly, toilet tissue that does not readily disintegrate may clog the drains and force them to back up! This situation can be partially averted by buying the proper toilet tissue.

Recognizing the importance of this, MD Toilet Tissue is processed so that it absorbs water completely and quickly! People who know about—and use—MD Toilet Tissue have less trouble with clogged discharge drains in their septic tank system.

Follow this plan for best insurance: Consult your County Health Department, your plumber, or a septic tank service company, for advice on cleaning your tank. Use MD Toilet Tissue!
