PEACHES!

Luscious, Freestone Elberta PEACHES

We feel that this value on peaches will be the best we will be able to offer you this season. We base this assumption on the fact that the Oregon and Washington peach crop will be about fifty per cent of last year's yield due to a freeze the latter part of April. These Early Alberta Peaches from California have a very good color and a grand taste because they have been allowed to reach full maturity on the trees. So, if you're planning to can peaches this season, we say "Now is the time to get started". You'll find a complete line of canning supplies at your Safeway, priced to save you money.
