Air Force Will Be Able To Transport All Atom Weapons, Weyland Says

WASHINGTON (AP) — Gen. Otto P. Weyland said Monday the time is fast approaching when the Tactical Air Command which he heads can use atomic weapons "in large numbers" if their employment is authorized.
"Every offensive type of aircraft that we have in the tactical air business is or will be equipped to deliver such weapons... every fighter-bomber and every light bomber," he said in a copyrighted interview with the magazine U. S. News and World Report.
"We are fast approaching the time when atomic weapons, if called upon, can be used in large numbers."
Weyland said the Air Force is supplementing its tactical strength with a F100 jet fighter, which he described as having "greater firepower, more range and vastly more speed than the P86... which we used and did such a swell job in Korea."
Asked whether the F100 could carry the atomic bomb, Weyland replied: "We're going to use it predominantly for combat in the air, but it will also be a fighter-bomber capable of carrying any weapon."

Marie Dionne Uncertain Of Future Life's Course

CALLANDER, Ont. (AP) — Quintuplet Marie Dionne, home after eight months in a Catholic cloister, says she will spend the summer with her family and "after have regained my health, I will decide whether or not to return to the sisters."
Marie talked with reporters Monday after a joyous reunion with her four quint sisters and the other Dionnes. She left the Quebec convent of the Sisters of the Blessed Sacrament last Wednesday.
She departed, she said, because she was ailing, had lost her appetite and was homesick. She added, however, that her break with the cloistered life might not be final.
Since the 20-year-old girl had not taken her final vows, she was free to leave the order at any time and can return if she chooses.
