Hanoi Residents Take Cease-Fire News Casually

By FOREST EDWARDS

HANOI (AP)—Hanoi civilians and military men alike heard without surprise Tuesday a broadcast report that a cease-fire agreement had been reached and that the French must leave Hanoi within 35 days.

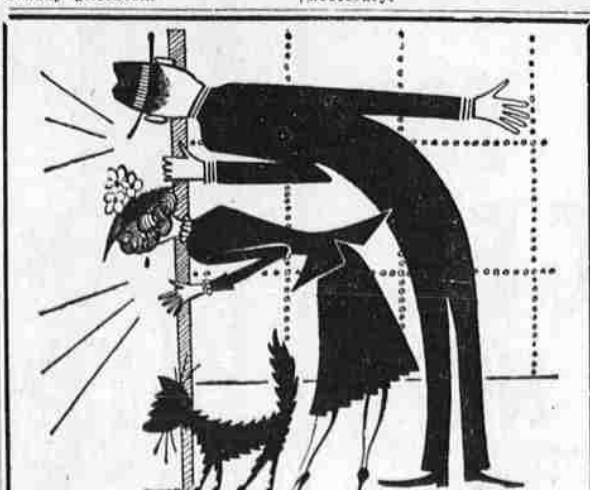

Radio stations here and at Saigon broadcast a French News Agency dispatch out of Geneva that a tentative agreement, reached but not yet signed, would partition Indochina near the 17th parallel and require the French to evacuate Hanoi in 35 days and Haiphong in 160 days after the signing. Official confirmation was lacking.

Little knots of civilians, both French and Vietnamese, discussed the report on street corners and over coffee at sidewalk cafe tables. Their tones were subdued. The reaction was one of resignation and acceptance of the inevitable.

An Indian merchant looked over his stock and wondered aloud at how much he could take to Haiphong and how much he could sell there. A Chinese shopkeeper peddled his bicycle to the Chinese Nationalist consulate and registered himself and his family of five as desiring evacuation.

A consulate official said the Chinese made about the 3,000th registrant for evacuation via two civil air transport planes which the Chinese Nationalist government had chartered to take Chinese to Haiphong and Saigon. Full shuttle service to Haiphong was to start Tuesday.

Consulate officials estimated about 100,000 Chinese are in North Viet Nam, including about 10,000 in Hanoi and 30,000 in Haiphong. French civilians predicted authorities would begin evacuation of women and children within two or three days after a formal cease-fire announcement. A high French army official said Hanoi's 6,200 French civilians could be flown out in eight days if that speed was necessary.

Washington State Files For Priest Rapids Permit

SEATTLE (AP)—Ignoring objections voiced by the Grant County PUD, the State Power Commission voted Tuesday night to apply for a permit to construct the Priest Rapids Dam on the Columbia River.

The step toward building the 380 million dollar dam which would have a power potential of 1,590,000 kilowatts, was taken on a 4-1 vote, with commissioner Tom Quast of Marysville dissenting.

The application will be taken to Washington and discussions held with the Federal Power Commission, which must approve the application. The FPC also will be asked by the Grant County PUD for a temporary permit to build the dam.
