Worn Fixtures Nuisance, Costly

You may have a shiny, streamlined automobile in the driveway, new television, and new kitchen appliances, but how about your bathroom? Does it contain worn, unattractive fixtures that were outmoded when Tighe was a pup?

Not only are these worn fixtures unattractive and an inconvenience to the entire family, but they are harder to keep clean than the smooth, gleaming surfaces of new fixtures.

Also, old plumbing REDUCES the VALUE of a home. Real estate agents will confirm that nothing points up age in a house as much as old, outmoded bathroom fixtures. These old fixtures can be replaced with new ones very easily at a cost far lower than most people realize.

Each year, thousands of families are pleasantly surprised when they learn that a complete new bathroom, including new piping and fixtures, can be installed for much less than a thousand dollars. And, installation of new plumbing adds twice the cost of this improvement to the value of your home.

Most of this amount can be financed quite simply with an FHA home modernization loan at low interest rates. And modernization of an existing bath can be done for much less.

Why not stop in at KIER-CROUCH PLUMBING CO., 230 N. Stephens St., and see a large display of new attractive plumbing fixtures or simply call 3-5377 and Wayne Crouch will be glad to call at your home. In fact, you can remodel your bath, or kitchen... right now with nothing down and up to 3 years to pay. Make an investment in value and convenience for your home by seeing or calling KIER - CROUCH PLUMBING CO. They are also prepared to do a complete remodeling job for you, including carpenter work and new electric wiring if you desire. (Adv.)
