Worn Fixtures Nuisance, Costly

You may have a shiny, streamlined automobile in the driveway, new television, and new kitchen appliances, and how about your bathroom? Does it contain worn, unattractive fixtures that were outmoded when Tige was a pup? Not only are these worn fixtures unattractive and an inconvenience to the entire family, but they are harder to keep clean than the smooth, gleaming surfaces of new fixtures.

Also, old plumbing REDUCES the VALUE of a home. Real estate agents will confirm that nothing points up age in a house as much as old, outmoded bathroom fixtures. These old fixtures can be replaced with new ones very easily at a cost far lower than most people realize.

Each year, thousands of families are pleasantly surprised when they learn that a complete new bathroom, including new piping and fixtures, can be installed for much less than a thousand dollars. And, installation of new plumbing adds twice the cost of this improvement to the value of your home.

Most of this amount can be financed quite simply with an FHA home modernization loan at low interest rates. And modernization of an existing bath can be done for much less.

Why not stop in at KIER-CROUCH PLUMBING CO., 230 N. Stephens St., and see a large display of new attractive plumbing fixtures or simply call 3-5377 and Wayne Crouch will be glad to call at your home. In fact, you can remodel your bath... or kitchen... right now with nothing down and up to 3 years to pay. Make an investment in value and convenience for your home by seeing or calling KIER-CROUCH PLUMBING CO. They are also prepared to do a complete remodeling job for you, including carpenter work and new electric wiring if you desire. (Adv.)

It's the Hit that's writing New History

TAKE a look, if you please, at the car and the styling that are changing historic sales standings.

Take a look at the beauty and the buy called Buick—the car that is forging ahead to new sales heights in the 1954 market.

Take a look at the new best seller that has moved into the "Big Three" of the nation's top sales leaders—into that very exclusive circle that for two decades has held only the so-called "low-price three."

For today, as national sales figures for the first five months reveal, Buick is outselling all other cars except two of these "low-

price three." And each month firms Buick's new position.

It takes solid worth to bring this about—a lot more automobile per dollar in Buick than in other cars.

But it also takes the glamorous new tomorrow styling that is Buick today. It takes the highest V8 horsepower, Series for Series, in all Buick history. It takes the room and comfort and ride and handling that are Buick's proud tradition.

And it takes a range of cars to satisfy a wide range of people—with prices that most people can well afford. So you find

the low-priced SPECIAL, the high-powered CENTURY, the extra-spacious SUPER, and the custom-built ROADMASTER—the four big reasons for Buick's tremendous sales success.

Come in for a demonstration and you'll see what we mean.

With the years-away styling of this glamorous car, you'll be way ahead at resale time. And right now you're money ahead with the big trade-in allowance our volume sales can bring you. Drop in this week.
