# Here's why more people are buying Fords

FORD already has "tomorrow's" features

Ford brings you features today that the other low-priced cars can offer, at best, sometime in the future. Only Ford in the low-price field has the long, low styling of cars to come—free from bumps and bulges. Only Ford has the easier handling of modern Ball-Joint Front Suspension! And only Ford has a V-8 engine—the type other makers are swinging to!

FORD'S Y-Block V-8—the only V-8 in its field  
—is the industry's most modern engine

The world's leading maker of V-8's brings you the brilliant new 130-h.p. Y-block V-8. Its deeper-block construction makes it stronger, quieter running. Its lower-friction design lengthens engine life and cuts gas waste.

FORD gives you Ball-Joint Suspension  
for easier riding and handling

Ball-Joint Front Suspension is the greatest chassis advance in 20 years. It does away with old-fashioned kingpins. You get superbly easy handling, even on the roughest roads . . . a far smoother ride. And wear points are cut from 16 to 4.

FORD'S worth more when you sell it, too

Analysis of used car prices shows that Fords return a higher proportion of their original cost at trade-in time than any other car! When you consider Ford's low initial cost . . . Ford's low running cost . . . and Ford's high resale value . . . it's easy to see that Ford is your best buy.

And we are giving  
the best deals in 30 years

So many people are buying Fords that our overhead on each car is less. We can afford to allow you more. See us today for the greatest deal on the greatest car—a "Worth More" '54 Ford.
