The man who changed beers

Brewed the mellow way.

MEET one of our new friends. For years he stuck to the same brand—and good beer it was, too. Recently he changed to Rainier, and naturally we were interested to hear him tell about it.

"Not much good at describing things," he said. "Just like the mellow taste Rainier has, that's all. The way there's no tang or bite. And the way it's mild in taste without being weak or watery. Well, I just like it that's all."

You may agree with our new friend when you try Rainier. It's the beer that's growing fastest in popularity.

Takes time—but it's worth it. Because Rainier's long stay in frosty ageing cellars gives it the mellowness you like.
