### Lone Rock Bridge Riveting Continues

By MRS. ARTHUR SELBY

The five man crew of steel riveters of Local 29 from Portland have been steadily working (even in rain) since Sept. 8, bolting, pinning and driving the 9,000 rivets to be placed in the steel structure of the new Lone Rock Bridge, "Peg" Lambertson, foreman of the riveting crew, stated they expect to complete the riveting of the 210 tons of structural steel Nov. 1.

**Pouring Begins Oct. 21**

The carpenters are working on the bridge deck putting in the forms for the pouring of the concrete while the riveters are working overhead. Pouring of concrete is expected to start Oct. 21, according to Lambertson, and the concrete must set 21 days. Tom Lillibco Construction Co. will not paint the bridge until spring as rain and snow causes rust to form, and the steel must be sand-blasted before painting.

The bridge will be opened in November and the Kiwanis Club of Glide is planning a public celebration for the occasion.

## "Hardware is my Business!"

"To me the satisfaction of supplying people with quality merchandise and service is the outstanding reward of running a hardware store. There are high industry standards for the tools, appliances and supplies that I handle, and in selecting merchandise for my customers, I make sure that my stock meets these rigid requirements. To keep people reminded of my store and services and to announce new merchandise, I use newspaper advertising regularly. It's an effective way to send the news about my store to the people in this community."

All businessmen are aware of the standards of quality, weight and measure that are used in evaluating the merchandise which they buy and sell. It is also possible to buy newspaper advertising on the basis of definite standards, namely, the information in the reports of the Audit Bureau of Circulations.

The A.B.C. is a cooperative, nonprofit association of 3,575 publishers, advertisers and advertising agencies. Its purpose is to provide advertisers with audited information about the circulation of its publisher members.

At regular intervals the A.B.C., of which this newspaper is a member, sends an experienced circulation auditor to make a thorough inspection and audit of our circulation records. The FACTS thus established are published in an A.B.C. audit report which tells you: How much circulation we have; where it goes; how obtained; how much people pay for our paper; and other FACTS that you need in order to KNOW what you get for your advertising money.

Advertisers are invited to ask for a copy of our latest A.B.C. report.
