WCTU Urges Alcoholic Advertising Ban On Air

PORTLAND (AP) — Congress should be urged to ban television and radio advertising of alcoholic beverages, the Oregon Women's Christian Temperance Union was told Tuesday.

Mrs. Fred J. Toose, president, made the statement in an opening address at the organization's 71st annual convention here.

She estimated that one out of every 50 persons in Oregon is an alcoholic. That compares with a national average of one in 20, she said.

Mrs. Toose reported that 20 per cent of those admitted to the Oregon State Hospital at Salem for the first time are alcoholics.

She accused the liquor industry of spending 250 million dollars annually to advertise products "that are destroying the very foundations of our country—one of which is the home."

Federal Employee Security Facts Await Release

WASHINGTON (AP) — The Civil Service Commission's forthcoming "white paper" setting forth inside facts on operations of the federal employe security - loyalty program likely will not be made public until after the Nov. 2 elections. This was indicated Wednesday by Rep. Rees (R-Kan), chairman of the House Post Office and Civil Service Committee, in a telephone interview at his home in Emporia, Kan.

Rees said the report had not yet been delivered to the committee and that the simple mechanics of making it available for public distribution would mean "some time" would elapse before it could be released.

The report, due to be delivered to the House committee Wednesday, was still undergoing security clearance by administrative agencies at last report.

It was first requested for Sept. 1, but last week Rees set an Oct. 20 deadline. The new date was fixed after the Civil Service Commission made public on Oct. 11 its report of 6,226 separations from the government payroll in the last nine months of the Eisenhower security program.

The commission said that of total firings and resignations for security reasons, 1,743 were individuals with subversive data in their files.

The report on operation of the security-loyalty program is expected to contain facts and figures from official files of the Civil Service Commission, detailing how various phases have been applied to individuals, from Alger Hiss on down the line.

Eisenhower May Select Young Man For Justice

WASHINGTON (AP) — President Eisenhower was reported Wednesday to be leaning toward selection of a relatively young man to fill a vacancy on the Supreme Court. Such an attitude would weigh against most of the names figuring in public speculation so far.

White House sources said the President feels his choice should be young enough to anticipate serving probably 15 or more years on the high tribunal.

The recent death of Justice Robert H. Jackson gives Eisenhower his second opportunity to make a Supreme Court appointment. His first selection was Chief Justice Earl Warren, who is 63.

Escapes Again Escapes From Oregon City Police

OREGON CITY (AP) — Robert Franklin Morris, 24, was in jail here last April for larceny and while visiting with his mother, made a dash to freedom. He was picked up later in a stolen car.

While rounding out his first sentence plus time for his escape, he asked Tuesday night to use the phone to call his father. After phoning, he again dashed to freedom and police still were looking for him Wednesday.

Dixon-Yates Case May Take Spot From McCarthy

WASHINGTON (AP) — Sen. Langer (R-ND) said Wednesday the controversial Dixon-Yates power contract may take the spotlight away from the McCarthy censure issue in the Senate session opening Nov. 8.

The North Dakota senator is chairman of the Senate Judiciary Committee and head of its anti-monopoly subcommittee, which has been investigating the Dixon-Yates proposal to feed private power into lines of the Tennessee Valley Authority.

Describing himself as a "bitter opponent" of the proposed contract, Langer said in an interview that full-blown debate on it is likely to come when the Senate meets to decide whether Sen. McCarthy (R-Wis) should be censured.

"In my opinion," Langer said, "the McCarthy censure issue will shrink into insignificance in the fight to prevent a few private utility companies from getting a monopoly of the electric rates in Southern states."

"It will be a knock-down, drag-out fight. I intend to speak on Dixon-Yates. Testimony before my subcommittee shows that if the philosophy of Dixon-Yates is carried out, REA (the Rural Electrification Administration) and TVA would be wiped out."

Current expenditure for elementary and secondary schools averages 247.45 per year, per pupil, says the National Education Assn.
