**Security System Causes Suspicion, Says Scientist**

WASHINGTON (AP)—Dr. Vannevar Bush, one of the nation's top wartime scientists, says the present security system has created an "air of suspicion" which is doing "great damage" to the efforts of scientists to develop modern weapons.

Bush told a House subcommittee last June that "the way in which our security system is working at the present time is driving a wedge between the military and scientific people of the country."

In his testimony, made public Monday, Bush said the reaction of three out of four scientists working with the government both in Washington and in the field was summed up by the reaction of an unnamed friend, once in top wartime councils. He quoted the friend:

"Well, we have practically stopped working. It is quite impossible to accomplish anything in this atmosphere."

Bush, president of the Carnegie Institution and wartime chairman of the Research and Development Board, joined other scientists in testifying before a House government operations subcommittee investigating the status of military research programs.

**SINGER NOT FATHER**  
 LOS ANGELES (AP)—Singer Johnny Johnston and his wife Shirley embraced happily after a superior court judge ruled that Johnston is not the father of a showgirl's expected child.

"Just because a woman says a man is the father of her child doesn't make it so," Judge Elmer D. Doyle commented as he denied the claim of Bette Bowers who testified she was intimate with Johnston in a hotel room in Washington last March.

**Four Car Traffic Crash Sends 15 To Hospital**

TACOMA (AP)—A four-car crash involving a Greyhound bus near Fife Corner on Highway 99 Tuesday morning sent at least 15 persons to three hospitals.

None was killed. Most seriously injured was William Hand, 30, Kent, driver of a Seattle meat company truck, who had a broken back and pelvis.

Hand's truck was hit head-on by the bus. The driver of the bus had not been identified.

According to Ted B. Johnson, Kent, a truck driver who saw the accident, a car had stopped for a left hand turn on the highway and a panel delivery stopped behind. The bus came up behind the panel truck, applied the brakes, and skidded on the wet pavement into the panel truck. It hit the first car a glancing blow, then veered into the opposing lane of traffic, hitting the meat company's truck.

**Site Selected For New Oregon Reformatory**

SALEM (AP)—The Oregon Board of Control voted Monday to locate the new state reformatory 15 miles north of Salem.

The board also decided to ask the 1955 Legislature for money to buy the First Presbyterian Church in Salem.

The next state office building probably will be built on property occupied by the church.

It said it wants to buy the 425-acre Williams and Hart Ranch, which is located off the Salem-Newberg Road, three miles south of St. Paul. The site will cost \$70,000.

Final decision on the site will be made by the State Emergency Board here Nov. 5.

Oregon's two penal institutions now are the Boys School at Woodburn, and the penitentiary at Salem. The reformatory would be for boys too tough for the boys school, but who are not considered tough enough to be placed with hardened criminals at the prison.

The 1953 Legislature appropriated \$1,250,000 to start building it, but the eventual cost will be at least twice that.
