that's sweeping Buick to record sales in October!

BUICK BONUS **Record-making Allowance in October**

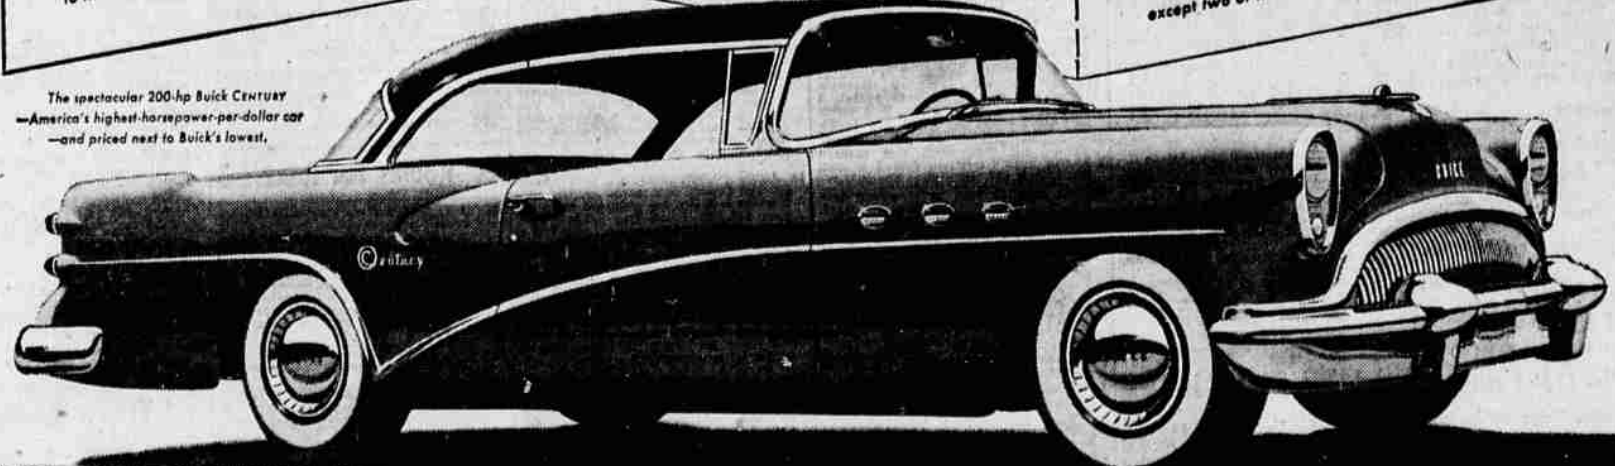

One look at the national sales figures tells you this: Buick is outselling every other car in America—regardless of price class—except two of the "low-priced three." And just to keep sales soaring—we're willing to give a whole lot of an allowance this month—to keep success rolling in high. So come in—get a car and a deal that are too good to miss.

BUICK BONUS **Higher Resale Value**

Year after year, Buicks have always carried a high resale value. But the 1954 Buick has an even bigger edge in its year-ahead styling. It will still be fresh and new-looking when other '55 models come out. So the new Buick you buy today will keep you plenty of dollars ahead when you trade it in.

BUICK BONUS **Tomorrow's Styling Today**

You can see it on every new Buick on the road—glamorous new-day styling keynoted by that broad panoramic windshield that most other cars won't have till 1955 or later. And with this advanced styling, you get Buick's record-high V8 power, luxurious room and comfort, that famed Million Dollar Ride—and all for prices that start just a few dollars above those of the so-called "low-price three." Result: Buick is now outselling all other cars in America except two of these "low-price three."

The spectacular 200-hp Buick Century—America's highest-horsepower-per-dollar car—and priced next to Buick's lowest.
