HEAVY TRAFFIC FLOW—The map above has been compiled to graphically show the volume of traffic on state highways in the county. Figures were secured from the traffic survey report by the State Highway Commission in 1953. The graphic map was drawn by staff of the Douglas County Planning Commission. The width between the dotted lines is determined by the amount of traffic every 24 hours. Traffic through incorporated cities was not counted. Planning consultant J. Haslet Bell said the map would aid the county in determining improvement, maintenance and construction of roads. The greatest flow of traffic can be noted at the Garden Valley junction of Highway 99. Traffic during a 24-hour period reaches 16,100 cars.

Windfall Profits Recovery Sought By Government

WASHINGTON (AP) — The government has announced it will seek to recover nearly 3 1/2 million dollars of alleged "windfall" profits from builders of the huge Parkchester apartment development in New Orleans.

Calling the case "one of the most shocking of the pre-1950 windfall scandals," Commissioner Norman P. Mason of the Federal Housing Administration (FHA) asked the Justice Department to begin legal proceedings.

Mason's press release announcement did not specify what these legal proceedings might be.

Paul Kapelow, president of the Parkchester Development Co., has denied the government's 3 1/2-million-dollar "windfall" claim. He has testified his excess of FHA insured loan over actual construction costs—known as "windfall"—when the builder pockets the difference—was \$1,746,000.

Mason said the case is the seventh in which the government seeks to recover profits resulting from FHA-insured mortgage loans larger than actual construction costs. He said the government wants to "remove the injustices to tenants whose rents are based upon inflated mortgage loans."

OREGON NEEDS

★ DST means Pacific Coast time uniformity. California, Nevada and British Columbia now have DST. Washington is voting on it.

★ 52,000 registered voters say, "Give Oregon Daylight Time".

★ Oregon climate affords a minimum of sunshine. Let's enjoy it while we may—in summer.

- ★ DST aids family recreation and family solidarity. Families that play together stay together.
- ★ DST provides fresh air and sunshine for children, promotes physical health and proper emotional adjustment.
- ★ DST reduces juvenile delinquency by substituting healthful outdoor recreation.
- ★ DST builds the tourist industry, Oregon's third largest. Oregon is an outdoor country in summer but it takes daylight to enjoy it.
- ★ DST conserves power, builds industry, creates jobs.
- ★ DST saves lives and promotes safety.
- ★ DST aids business, promotes sale of lumber and farm products.
- ★ DST uniformity would aid transportation lines.
- ★ DST would eliminate radio schedule confusion.
- ★ DST will provide 154 extra hours of sunshine; save the cost of 154 hours of some illumination each summer.
- ★ DST will help keep Oregon a land of gardens.
- ★ DST helps berry and produce growers get pickers into fields early, preventing discoloration and spoilage.
- ★ Working people overwhelmingly favor daylight saving time so they may enjoy more fresh air and sunshine.
