Unusual Recovery Of Lost Ring Told
By JEAN RADCLIFFE
Russell Lovell and Charles Forrest went hunting in the Dillard area over the weekend. Mrs. Forrest reports they had an unusual experience with a happy ending.

Losses Ring In Forest
Lovell lost his Eagles ring, and after searching every possible place he could think of in the area in which they had hunted, returned home. He also looked at home, but had no success, so he decided to go back to the Dillard area once more. He and his friend stopped under an apple tree where they had previously eaten their lunch two days before. There, tucked among the dried matted leaves, was the ring.

Days Creek School Carnival Success

By JEAN YODER
The Days Creek school carnival, held Oct. 29, netted the high school \$200, according to Supt. Marjorie Yoder. The proceeds will be divided five ways among the four high school classes and the student body.

Della Wright and Eddie Lowry, senior candidates were selected queen and king of the carnival. The king was crowned by last year's king, Jack Couch, now attending Oregon State College, Jean Fairfield, student body president, who acted in the absence of last year's queen, Clara Wedde, who is attending Southern Oregon College, crowned the queen.

The door prize, was won by Loren Duncan, home on leave from the service.

Since the net profit to the school was the same as last year's, although the price for all events was only 10 cents, Supt. Yoder stated that he thought the carnival was successful in bringing entertainment to everyone.

School Activities
Primary grades at the Days Creek School are now receiving milk under the government plan. Milk is served at 2:30 p.m. daily.

Boys and girls interested in 4H Forestry club met Monday to view a movie and discuss organization. Ed Sheldon, high school teacher, is the advisor.

The junior class will be in charge of the all-school assembly Nov. 10. They will do the program a second time for the PTA meeting that evening. Junior mothers will be in charge of refreshments for the PTA. There will be no school on Nov. 11, Veterans' Day.

The Days Creek church chicken-noodle dinner and bazaar will be held in the school cafeteria and gymnasium on Nov. 12. Dinner will be served family style beginning at 5 p.m. The bazaar will feature handiwork made by the women of the Ladies Aid. A movie will also be shown.

The high school has two social events listed for the weekend of Nov. 5 and 6.

On Friday, the junior class will sponsor a Sadie Hawkins Dance, and Saturday evening the "GAA" will sponsor an award banquet in the school cafeteria, to award football letters, and activity letters where enough points have been earned.

A representative from the telephone company came to the school Tuesday and brought two telephones. Yoder demonstrated their use to the high school and upper grades.

The school's nine week period ended Friday and report cards will be given out Nov. 10. Aptitude tests for seniors will be given Nov. 9 at the school, by the state employment office.

Peace Outlook Better, Eisenhower Declares

sign policy," the chief executive said.

He received a rousing, standing ovation at the state capitol address which was televised and broadcast locally.

Mothers' Teaching Urged
Departing from his text at one point, Eisenhower declared "with all the earnestness I can command that if American mothers teach their children there is no real alternative to peace, we shall have peace."

"By broadening alliances, by strengthening our cultural ties with peoples of other lands, we build a firmer foundation for permanent peace throughout the world," he said.

"It is not paradoxical in our peaceful efforts that we maintain powerful military forces," the President said. "For a world partly dominated by men who respect only guns, planes and tanks, these weapons are essential to our survival."

The President said the struggle for a lasting world peace must be waged through the United Nations and in every other possible way.

"I know all Americans are hopeful that our proposal for an international pool of atomic energy resources will inaugurate a new phase in negotiations between the United States and the Soviet Union."

"I deeply believe that, regardless of the Soviet decision, the cause of peace will be furthered as we go ahead with friendly nations to turn this new science to the arts of peace."

Riddle Post Office Occupies New Quarters
The Riddle Post Office opened for business Monday in its new quarters next to the old building, reports Correspondent Mrs. Erna Best.

The move from the old postoffice to the new one was made Saturday and Sunday. Although the new building is not yet completed, Postmaster Pearl A. Lawson reported the move was made so the office force can get organized for the holiday rush, Mrs. Best said.

The front of the building has full length windows. Woodwork is dark green with yellow trim. The interior is lighted with overhead fluorescent fixtures. All equipment is new.

Still to be installed is a tile floor and a screedline, Mrs. Best said. Postmaster Lawson said the new postoffice was necessary because of the increasing volume of Riddle mail.

Delay In Finishing Count Of Votes In Multnomah Co. Is Explained By Director

By THE ASSOCIATED PRESS
Thirty hours after the counting started, the last of the Multnomah County voting precincts finished its job Wednesday. Two others were not much ahead of the most tardy one.

Because the late Multnomah count put Richard L. Neuberger in front in his U. S. senatorial race against Guy Gordon, the question of why so much delay, has been asked repeatedly. Why couldn't the outcome be known sooner?

James Gleason, the man who directs the Multnomah County election machinery, says Oregon's election laws are not geared to get speed out of big cities.

This is what happens: An effort is made to change precinct boundaries in advance of elections to keep the registered vote in any one at a minimum of 400. This doesn't always work due to physical and geographical limitations, but the number is less than the 500 which used to be the top.

Within each precinct two boards are appointed: one to handle the voting and the second to handle the count. The counting board reports at 10 a. m., two hours after the polls open, and goes to work as soon as 20 votes have been cast.

The counting board stays on the job for a 22-hour shift if need be. If it still has not completed its job at 8 a. m. the morning after the election, then the voting board is called back to take over the counting.

But, says Gleason, sometimes members of the voting board are not available the second day, so the counting board just stays on.

This is difficult. As the hours go by, counting slows because of fatigue. The last Multnomah board to report this past election had to call it off for a few hours for sleep and two members got sick from exhaustion, and replacements were called in.

But, says Gleason, the count is not handled by "juveniles and old women" as a New York broadcaster said in an unguarded moment just before taking a plane back to the east. Board members are registered voters—and most of them are housewives. But they

aren't "old women." Many have threatened to quit because of the insult of that tag, Gleason said, and he's having a hard time pacifying some of them. He hopes to have that straightened out before the next election.

As things now stand, there isn't much to be done to get the count speeded up. More precincts with fewer voters in each isn't a full answer because the slowest precincts were not the biggest.

There are too many names and measures on the ballot for fast work, Gleason says. And in this election most people voted for even the unopposed candidates, adding to the tallying chore.

Are voting machines the answer? Gleason says machine salesmen say so. But he points out that Multnomah County tried them once long ago and the people threw them out. Maybe they are ready for another trial, he agrees, but points out that no machine made will handle the Oregon primary election ballot. It's too long.

Gleason points out that now Oregon's election lumps national state, county and city together—and in the spring, the school election is added to the primary. In some states that is not so. School and city elections are separate. Sometimes county are too. That cuts down on the size of the ballot, and makes greater speed possible.

What is the situation regarding voting machines? They give an almost immediate total on the votes when the polls close. They really answer the problem of some people as is waiting to learn the results.

But sometimes people have to stand in line to vote because it would cost too much to have as many voting machines as there now are booths. And waiting to vote is as annoying to some people as is waiting to learn the results.

If machines were feasible, and one were assigned to each Multnomah County precinct, the cost of buying them and getting them delivered would run around a million and a half dollars.

Some 20 years ago the cost was the thing that stopped machines in Multnomah County—people refused to vote bonds to buy them.

Senate Ready To Thrash Out McCarthy's Case
(Continued from Page One)

bers who have died since the Senate last met.

McCarthy has said he will not defend himself against the charges but will speak at length to inform the public on the issues.

The Watkins committee was composed of three republican and three Democratic senators. McCarthy, in Sunday's TV appearance, repeated his charges that three of the six were prejudiced against him. He called the committee's unanimous report "silly."

McCarthy said the vote will go against him on purely political grounds—not on the basis of anything in the report.

Answering a question, he said he thought the Republicans might well have kept control of Congress if their campaign speakers had not been so hard on the communists.

McCarthy told about this, said "I don't think that religion enters into it."

A vote of censure would have no legal effect, beyond an official rebuke, on the 45-year-old McCarthy (he's 45 next Sunday).

In New York the Rt. Rev. Msgr. Edward R. Martin, retired 1st Army chief chaplain, told a communion breakfast Sunday more than five million dollars has been raised in Washington to oust McCarthy from the Senate.

McCarthy personally know that over five million dollars has been pooled to kick Joe out of the Senate, said Msgr. Martin, now pastor of a Bronx Roman Catholic church, "and that's only a small portion of what is pouring in from Washington." and the reason is solely because of his Catholic ideals.
