Famous Trichologist Will Demonstrate How To Grow Thicker Hair ... And Guarantees It!

DEMONSTRATION TO BE HELD HERE

This new method of home treatment for saving and growing thicker hair will be demonstrated in Roseburg, Ore., Thursday ONLY DEC. 2, 1954.

These private individual demonstrations will be held at Umpqua Hotel on Thursday ONLY, Dec. 2—12 NOON TO 9 P.M.

OKLAHOMA CITY. — In an interview here today, William L. Keele, internationally famous trichologist and president of the Keele Hair and Scalp Specialist Inc., said "There are 18 different scalp disorders that cause most men and women to lose hair. Using common sense, a person must realize no one tonic or so-called cure-all could correct all the disorders," he explained.

Guaranteed "The Keele firm recognizing that most people are skeptical of claims that hair can be grown on balding heads, offers a guarantee," Keele said.

Once a person avails themselves to the Keele treatment his skepticism immediately disappears. To insure this, we offer this guarantee: "If you are not completely satisfied with your hair progress at the end of 30 days your money will be returned."

Hopeless Cases Discouraged First the trichologist is quick to tell hopeless cases that they can not be helped. But the "hopeless" cases are few. Only if a man is completely, shiny bald, is he in this lost category. If there is fuzz, no matter how light, thin or colorless, the Keele treatment can perform wonders.

A complete, private examination is given by a trichologist to determine the condition of the scalp, and cause for his hair trouble.

Free Examinations This examination is very thorough and highly technical. It requires 20 to 30 minutes. The trichologist makes no charge for this examination and

no appointment is necessary. After the examination the person is told the required length of treatment and how much it will cost.

After starting treatment, the person makes regular reports to the Keele firm in Oklahoma City to check progress of the home treatment.

To spread the opportunity of normal, healthy hair to the thousands who are desperately looking for help independent trichologists are visiting various cities throughout the United States to conduct examinations and start home treatment.

No Cure-All "We have no cure-all for slick, shiny baldness," Keele emphasizes. "If there is fuzz, the root is still capable of creating hair and we can perform what seems to be a miracle."

There is one thing Keele wants to be certain every man and woman knows. If a recession appears at the temples or a spot begins to show up on the crown of the head, there is something wrong and it should be given immediate attention.

Hair For Lifetime "If clients follow our directions during treatment and after they finish the course, there is no reason why they will not have hair all the rest of their lives," Keele said.

"Our firm is definitely behind this treatment. It all depends on the individual client's faithful observation of a few simple rules."

How's Your Hair? If it worries you call Trichologist M. Den Adell at the Umpqua Hotel in Roseburg, Ore. on Thursday ONLY, Dec. 2, 12 noon to 9 p.m. The public is invited.

You do not need an appointment. The examinations are private and you will not be embarrassed or obliged in any way. Both men and women are welcome.—Adv.
