Removing Troops Encouraging Step

LONDON — Prime Minister Sir Anthony Eden said here that Soviet Russia's agreement to the withdrawal of Big Four occupation troops from Austria removes one of the main obstacles to the conclusion of an Austrian independence treaty.

"The next step," Eden told the House of Commons, "will be for representatives of the four governments to examine, with Austria, the proposals put forward by the Soviet government."

It may be "we can now look forward with greater confidence to the prospect of fruitful talks with the Soviet Union," he said.

The new Prime Minister spoke less than six hours after Russia proposed, in notes handed to the British, French and United States envoys in Moscow, that the Big Four foreign ministers meet with Austrian representatives in Vienna in the nearest future to sign the

long delayed Austrian state treaty. Allied officials in London said West probably will go along with Russia's proposal for such a meeting.

Heltzel Orders Trains' Speed Same As Cities'

SALEM — Public Utilities Commissioner Charles H. Heltzel ordered Tuesday that the speed limits of trains in all cities except Portland be the same as now provided by city ordinances.

The order follows a recent State Supreme Court decision which held that the public utilities commissioner, not the cities, has the authority over train speeds through cities.

The city of Portland has authority to regulate its own train speeds. Heltzel said he would hold hearings to determine whether a change in train speeds should be made.

President Will Name New Federal Judge Soon

WASHINGTON — President Eisenhower will appoint a new federal judge for Oregon soon, Jess Gard, the state's Republican national committeeman, predicted.

Gard did not say, however, who the new appointee would be. Judge William G. East of the circuit court at Eugene, has been most prominently mentioned. The post has been vacant more than a year.

LAS VEGAS, Nev. — Arthur Schellang, part owner of the Las Vegas Club gambling casino, died yesterday of gunshot wounds. Detectives are investigating the possibility he might have been murdered.

The death was listed first as suicide—until a deputy coroner said that either of two bullets fired into Schellang's body could have killed him.

Cadillac

What The Doctor Ordered...For Himself!

The doctor had owned his new Cadillac for about a month—and he was talking to a friend.

"About the only recreation I get," he said, "is at the wheel of my motor car—driving to and from the hospital, my office, and the homes of patients."

"Other doctors, of course, have the same situation—and some of them kept telling me what a big 'lift' they were getting out of their Cadillacs."

"I decided to see for myself—and they were certainly right. I actually approach the day with a lot more zest—knowing that I am going to spend a couple of hours driving my Cadillac."

The doctor is experiencing, of course, what so many other professional and business men are experiencing—the wonderful lift to the spirits that a Cadillac brings a man.

Try it sometime—and see for yourself.

You'll find there's something about the way you

feel as you take the wheel. You know there's a car under you! Solid, substantial, capable and protective. Just to sit there gives you a wonderful feeling of confidence and well-being.

And when you start to move, the thrill is continuous. You almost never hear the great engine, except when it answers a smart touch to the throttle. Steering is little more than the response to your thought. You just ride and relax.

We hear it every day: "I drive my Cadillac for rest and relaxation."

Why not come in today—and make the test yourself. We'll give you the keys and a Cadillac—and the "rest" is up to you!

P.S. It's only fair to warn you: you probably won't find it easy to give up the keys. Some people simply refuse!
