Fredrickson's Photo Lab

MRS. ROY BELLOWS, above left, stands in front of one of her dining room windows holding some of her favorite cut and pressed glass dishes. Mrs. Bellows has collected rare china, silver and glassware ever since she was a young girl. Her home is a collector's paradise and Mrs. Bellows can very interestingly tell of many experiences in obtaining choice objects for her collection.

LOTUS KNIGHT PORTER

SATURDAY, APRIL 23, 1955

—The News-Review, Roseburg, Ore. 8

MRS. EDWIN NOLTE, above right, has an interesting collection of cups and saucers at her home on Calkins Road. Mr. Nolte, who is manager of Montgomery Ward here, has selected the majority of the collection, which he has given as gifts to Mrs. Nolte.

MRS. GEORGE E. HOUCK, right, says she has been collecting rare buttons since her grandmother gave her button string to her in 1885. Mrs. Houck, who has more than 2000 buttons, says she isn't interested so much in collecting a quantity, but in collecting buttons. A large number of her most prized buttons have been given to her as gifts.

MRS. GOLDA NICKELL, lower left, collects plates of all sizes from states and countries. A number have been given to her as gifts, while some she has secured on various trips. Her latest addition came from Greece. Mrs. Nickell, who is a member of the bookkeeping department of Mercy Hospital, resides on Spruce Street.

MRS. I. B. RIDDLE, lower right, has had numerous hobbies all of her life. She is an ardent gardener and she also has a large button collection, but the hobby she has found the most enjoyment in has been painting. The last few years, Mrs. Riddle has spent most of her leisure time in painting. She is standing beside paintings she has done recently.
