It's The Hardtop with Four Doors!

Here's the new hit in hardtops that's taking the country by storm—Buick's pioneering and pace-setting 4-Door Wildcat. The "convertible" look, with no center posts—but with separate doors for rear-seat passengers. Shown here is the low-price Special model—also available in the high-powered CENTURY Series. Both now in volume production to insure prompt deliveries.

(Man! what Variable Pitch Propellers do for Dynaflo Drive!)

IN A land vehicle, there's never been anything like the magic a pilot gets with his variable pitch propellers.

He can angle the blades of his propellers for performance as he heads his plane down a runway—to get quick take-off and climb.

He can switch the angle of those propellers for economy aloft—to get more mileage from the fuel in his tanks.

As we said—there's never been anything like that in a land vehicle. But there is now. It's in a Buick with Variable Pitch Dynaflo—and you can take the word of thousands of excited owners of new Buicks that it's the closest thing to wheeled flight...

Because you have twenty propeller-like blades whirling in oil inside your Dynaflo unit...

Because you can switch the pitch of those propeller blades from high-economy angle that gives you top gas mileage in cruising—to high-performance angle that gives you action plus...

And because, when you call for that action by pressing the gas pedal way down—you get it split-second quick and silky smooth—an instantaneous power response for get-away, or for a sudden safety-surge of acceleration when needed.

It's a solid, soaring, pulse-quickenning thrill

—unlike anything you ever felt before—and robustly bolstered by wallowing new horse-powers raised to record might.

It's something you definitely ought to try—just to know what's really new in automobiles—and to see for yourself why Buick sales are zooming to an all-time best-seller high.

Drop in today or tomorrow and we'll gladly arrange matters—show you, too, the prices that are keeping Buick in the tight circle of America's top sellers.

*Dynaflo Drive is standard on Roadmaster, optional on extra cost on other Series.
