

## Beef Most Popular Feature In Nation's Food Stores

By THE ASSOCIATED PRESS  
Beef was the most popular feature in the nation's food stores last weekend.

Most often mentioned as a weekend feature was chuck roast, with some markets shaving prices around six cents a pound from a week ago. Round roast and various kinds of steaks will be specials in a number of areas.

Beef is higher at wholesale, but one large chain was holding its retail prices at week-ago levels on such popular cuts as sirloin steaks and prime ribs. However, these prices may go up this week.

Legs of lamb will be unchanged or a bit higher than last week. Frying chicken prices are generally higher, increasing two to six cents a pound as planned by a major chain.

Eggs also may be a few cents higher in your market. Butter prices will show little change.

If you're looking for an unusually good buy in vegetables, consider the price of lettuce. Iceberg, romaine and big Boston all are available at lower prices.

There are other good buys in vegetables, among them yellow and green squash, peppers, escarole, pascal celery and other items such as spinach, radishes, and green onions.

Beets (mostly with tops), asparagus, carrots and onions also are worthwhile purchases, in the opinion of produce specialists.

Heavy shipments of California Long White potatoes and Florida Round Whites have brought lower prices. Old crop potatoes are selling for about the same as a week ago.

## Constitutionality Of Oregon Law Asked Of Court

OLYMPIA, Wash. — In an apparently unprecedented legal action, the Washington Supreme Court has been asked to rule on the constitutionality of an Oregon law.

The case involves the validity of laws passed by the two states authorizing construction of an 11 million dollar toll bridge across the Columbia River at Vancouver and a three million dollar remodeling job on the present span.

The project would be financed by a 14 million dollar bond issue to be repaid by tolls charged on both bridges.

Highways commissions of the two states and the Washington Toll Bridge Authority have asked the Washington high court to direct Washington State Auditor Cliff Yelle to reimburse the three agencies for expenses incurred in planning the bridge and setting up the bond issue.

Yelle refused to honor the claims, contending the laws of both states are unconstitutional.

The Washington law, Yelle contended, violates an agreement the state made at the time it purchased the existing bridge from Clark County. At that time the state agreed not to re-establish tolls on the span.

And, the auditor added, the Oregon law contains an unlawful delegation of legislative authority in that it allows Washington to set and collect the tolls on the two bridges.

## U. O. Dean Selected New Hampshire President

DURHAM, N. H. — Dr. Eldon L. Johnson, dean of the college of liberal arts and the graduate school of the University of Oregon, will become the 13th president of the University of New Hampshire.

His selection was announced here recently by university officials here.

He succeeds Robert F. Chandler Jr., who resigned last June to accept a Rockefeller Foundation position.

Johnson joined the faculty at Oregon in 1945, first as head of the political science department. He was elevated to the position of dean two years later.

A 1929 graduate of Indiana State Teachers College, he received his master's and doctor's degrees at the University of Wisconsin, where he taught before becoming director of the graduate school of the federal Department of Agriculture.
