

Plans Announced For New Medical Building In City

Plans are being completed for a new medical building at the corner of Mosher and Jackson streets in Roseburg. Meanwhile, two houses on the corner are being torn down to make room for it. The building is being erected to house offices of Drs. A. B. Munroe and J. M. Hutson, who currently have offices in the Pacific Building. The building will also house an office for a dentist He has not been named yet. Dr. Munroe reported today that two houses are currently being torn down at the site of the building, and a third will probably be razed this fall to make room for a parking lot for about 15 cars. The property was purchased from Charles and Pearl Healy. The building itself will measure about 108 feet by 30 feet. A dental wing will be constructed in addition. The building will include a full basement and a main floor. The two doctors are planning to rent out part of the basement for office space, and the remainder will contain full physiotherapy facilities. The medical and dental offices will be on the main floor. Architect for the building will be Lyle F. Glenn of Roseburg. Building supervisor will be H. L. Smith of Roseburg. Dr. Munroe has practiced in Roseburg since 1949, except for a two-year hitch in the Air Force. Hutson has practiced here since 1952.

Certified Mail Service Started At Post Office

A new service of the Post Office Dept. was instituted Tuesday at the Roseburg Post Office, according to Postmaster Clyde Carstens. That is the certified mail service. Only first-class letter mail having no money value will be accepted as certified mail, and letters of no value formerly registered at the minimum fee of 30 cents for obtaining proof of delivery no longer will be accepted, the postmaster said. The new service costs 15 cents in addition to regular postage for letters. Procedure in mailing is simplified. Blank certified mail coupons may be obtained from the post office or from any rural carrier. Part of the coupon is attached to the letter and 15 cents in stamps or postage meter impressions affixed, in addition to regular postage. Another part of the coupon is retained by the sender. If proof of receipt is desired, the sender can mark part of the attached coupon and affix an additional 7 cents in stamps to the envelope. Such letters can be dropped in any mail box. Advantage, Carstens said, will be the termination of long lines of customers at the post office registry window. He pointed out that it also will be a time-saver for many business firms which send out letters of no value which require proof of delivery. A supply of coupons can be kept on hand and attached to outgoing mail as needs require.

The defendant has been cited in the past for several driving violations, including a drunk-driving count in April at which time his license was suspended 90 days. After being picked up again by state police, the judge struck out against what he termed Hulsey's "willful and wanton disregard of the laws of the State of Oregon." Besides the fine, additional suspension of Hulsey's license for one year is mandatory under the law, the judge said.
