Q

Can you tell any difference in today's gasolines?

A

Yes — when you switch to **"Detergent-Action"** the one kind of gasoline that ends the biggest single cause of engine trouble

Like most motorists, you're looking for power when you buy gasolines. There's power to spare in "Detergent-Action" Chevron Gasolines—balanced* power for peak performance under every driving condition. But that's not all: "Detergent-Action" ends the cause of 1 in 3 repair bills by stopping power-robbing carburetor deposits. You can actually feel the difference as "Detergent-Action" returns your carburetor to factory-clean condition—ends rough idling, increases power and mileage. Fill up today with Chevron Supreme for high-octane performance in high-compression engines, or Chevron Regular, to get the most from engines with less critical octane requirements.

*Balanced performance means all the features your engine needs

- "Detergent-Action"
- Fast starting
- Quick warm-up
- Smooth acceleration
- Full power
- High anti-knock
- Area blending
- Vapor-lock prevention
- Economy mileage
- Rust and corrosion protection
