

NATION'S FIRST—The nation's first floating radar island, a six thousand ton "Texas Tower," is shown as it was moved from its berth at the Fore River Shipyard in Quincy, Mass. The weird-looking island is being towed to Boston for further outfitting. Eventually it will be towed one hundred miles east of Cape Cod where it will stand on still-like legs 87 feet above water as part of the Continental Radar Warning System.

Canyonville Church School Completed

Gravel Tabernacle vacation Bible school closed Friday with a program and exhibition for parents. Prizes were awarded during the program.

Bobby Kimball won first place in the attendance contest with Ronald Beatty taking second place. Winning prizes for reciting the verses of the New Testament were Ruth Huthaway, Lorraine Owens, Linda Lefler, Kenny Radford, Betty Willis and Charlotte Warren.

Total enrollment numbered 120 with an average attendance of 90. Parents were treated to cookies and punch in the girl's lounge, following the program, while they viewed the children's handiwork.

Neubarger Suggests Debate In September

WASHINGTON (U-P) — Sen. Neubarger (D-Ore.) Monday suggested that Rep. Connors (R-Ore.) debate with him on Connors' "maritime" bill for construction of John Day Dam during a week in late September.

The senator added that debates he held twice a day Monday through Saturday, thus permitting debates in 12 different Oregon communities.

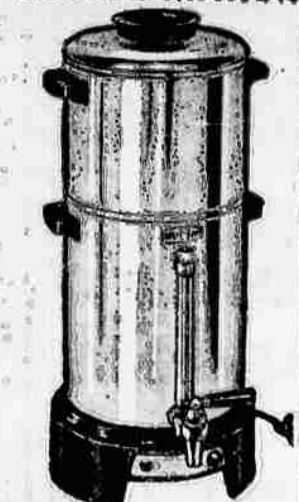

Neubarger said he had been "saturated" with invitations from organizations in Oregon that wish to sponsor the debates.

Conn said earlier that he was willing to debate the bill at any time or place mutually convenient. Conn's bill calls for local interests, such as private power companies to pay for power installation costs of the dam and in return receive 60-year power contracts.

Neubarger favors federal construction.

WEST BEND
48 Cup
COFFEE MAKER

New West Bend Portable drip coffee urn heats its own water to make 24, 36 or 48 cups of delicious coffee wherever there's an AC electric outlet. Handy dial operates heat control (off-boil-serve) to set desired temperature of water or coffee. Glass gauge shows amount of coffee in urn. Pilot light glows when unit is heating.

\$39.95

STANDARD 48-CUP DRIP URN (Keeps coffee serving hot; does not heat its own water.) \$32.50

SOVIET COAL—Goal of current Soviet diplomacy is a belt of neutral nations from the Baltic Sea to the Adriatic that would separate European members of NATO from the Soviet Union and its satellites. At present only Austria and Switzerland are neutral in Central Europe. Playing on all Germans' deep desire for unification, Moscow holds out neutrality as bait for West Germany. So far, West German Chancellor Konrad Adenauer has rejected the bait. Southern link in the neutral belt would be Yugoslavia. Soviet top brass went hot-in-hand to President Tito, hoping to cut him on the idea. So far, Tito maintains his "firm independence." Early this year Soviet Deputy Foreign Minister Andrei A. Gromyko went to Stockholm with the reported message that the Soviets would not object to a Scandinavian union (Sweden, Finland, Norway, Denmark) if the union would pledge strict neutrality.

AGREEMENT REACHED—Harry W. Anderson (left), General Motors vice president in charge of industrial relations, and United Auto Workers President Walter P. Reuther happily shake hands after announcing the agreement between company and union on a new contract. The new contract contains a guaranteed annual wage plan. Agreement was reached in Detroit.
