 The club is composed of the top agents of the company. The two are attached to the Eugene office.

### Alaska Timber Offered To Pulp Mill Builder

JUNEAU, Alaska (AP)—Some 7 1/2 billion board feet of Southeastern Alaska timber were offered for sale by the U. S. Forest Service with the proviso that the successful bidder build a pulp mill by 1961.  
 Regional forester A. W. Greeley said the timber, mostly western hemlock and Sitka spruce and some Alaska yellow cedar, will go on the auction block here Aug. 17.  
 The successful bidder, under terms of the contract, will be required to build a pulp mill with an annual log requirement of at least 100 million board feet before July 1, 1961.

The buyer will have 30 years to cut and remove the timber in line with the sustained yield policy of the Tongass National Forest. The timber is in a 500,000-acre area including Admiralty Island and the southern end of Lynn Canal.  
 Greeley said announcement of the sale followed more than a year of planning by the Forest Service. It was set in motion by a request of the Georgia-Pacific Plywood Co. that a large timber tract in Southeastern Alaska be advertised for competitive bidding.

### House Votes Override On Appropriations Bill

WASHINGTON (AP)—The House has voted tentatively here to override its Appropriations Committee and add \$33,654,558 to Reclamation Bureau funds.  
 On an amendment by Rep. Miller (R-Neb) it voted 103-79 to allow the full budget estimate of \$146,000,000 for reclamation construction, and increased investigations money from \$3,669,446 to \$5,104,000.

The House action is subject to a later roll call vote, should it be demanded.  
 The strength of the bloc supporting the increased funds indicated similar action will be taken later to bring requests for flood control and rivers and harbors projects in line with budget estimates.

### Ike's Economic Policies To Be Election Issue

DETROIT (AP)—Vice President Nixon says the economic policies of President Eisenhower will be the "great issue" of the 1956 presidential election.  
 "In 1956," Nixon told the Young Republican National Convention Friday night, "we shall have a showdown battle between those who would nationalize and socialize basic American institutions and those who would continue the American economic policies which have been put into effect by this administration and which have worked so well."

A defeat for the Republican Party could mean only a return to the "Truman economic policies," he said. And, he added, "The basic theory of the New and Fair Deal was that every problem should be solved by government action."  
 In contrast, he said, the Eisenhower theory is that "the way to the greatest prosperity is to reduce government activity and encourage private enterprise."

A chant of "We Want Ike" broke from the crowd of 1,200 that attended the \$10-a-plate dinner as Nixon accepted a convention mission to give the President a scroll signed by 1,000 supporters urging the "Eisenhower-Nixon team" to run again in 1956.

### Danger Of Forest Fires Lessening

Fire danger appeared to keep to a minimum over the weekend. A single, holdover lightning fire

in the South Umpqua District near Tiller was reported by US Forest Service personnel.  
 A crew from the Umpqua Forest's Tiller Ranger station was sent to investigate the fire which forest men termed small.

### Turkeys Reach Market, Bring 31 Cents Pound

PORTLAND (AP)—This year's crop of turkeys is beginning to reach the market with the opening price at 31 cents a pound for hens, an increase of 3 to 4 cents from last year, and 28 for toms, up 5 cents.

The birds are going into freezers instead of to retail markets. The first deliveries were 1,600 turkeys from Newton Fruit of Me Minnville and 1,800 from Felix Wright, Silverton.

### 32 File Uranium Claims In Bumping Lake Area

YAKIMA (AP)—Uranium claims were filed by 32 persons on property in the Bumping Lake area today, they have uncovered pebbles said they have uncovered "very rich" finds.  
 The claims, filed with the Yakima County auditor, cover ground about 2 1/2 miles square and four or five miles south of the lake in Northwestern Yakima County.  
 Twenty-six of the claims were filed Thursday and six Friday.

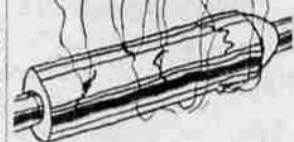

Miller said five suppression crews totaling 60 men went out to DPTA offices Monday. He listed the following crews: Elk Creek, 10; Hinkle Creek, 10; Roseburg office, 10; Canyonville, 20; and Glendale, 10.

Fifteen University of Missouri forestry students make up part of the number. The remainder are local men.
