One Thing Men Agree Upon!

It is in the nature of things for men to hold opinions and to argue and dispute.

Football, baseball, politics—guns, golf clubs, breeds in dogs . . . name a best, and you have an argument.

And so it goes through boats and trains—and horses and tennis and makes of planes.

But when the discussion turns to motor cars, you'll seldom get an argument if you name **CADILLAC** as the car of cars.

That's about as close as men come to universal agreement. And with good reason.

Who could look about him at the various styles in motor cars—and not give the nod to Cadillac for its great dignified silhouette?

Who could take the wheel of this dynamic performer—and not crown it the king of the highway?

Who could relax in its luxurious comfort for a mile or five hundred—and fail to recognize it as the finest riding car on the world's highways?

And who could look back over its illustrious past—or look about him at the people who own it and drive it today—and not acclaim it as the most distinguished car in the whole automotive world?

We feel assured that you, yourself, are aware that Cadillac is the car of cars. But that is but part of the wonderful Cadillac story.

There are economy—and value—and dependability. And there are all the other sound, practical reasons for owning a Cadillac.

Come in and see us. Thirty minutes at the wheel . . . and you'll understand why there's no argument about a Cadillac!
