

Red Cross Offers Five-Day Course In Home Nursing

A five-day course in Red Cross home nursing instruction will be offered in Roseburg next week, starting Monday.

The 30-hour course will be presented by Mrs. Patricia Hunsaker. She is a RC nursing instructor from the organization's Pacific area office in San Francisco.

It is open to persons with teaching experience, registered nurses, home economic instructors or home extension agents. Douglas County Home Nursing Chairman Mrs. Frances Young said Tuesday there was no charge for the classes other than a 60-cent fee for the manual.

The classes will be conducted Monday through Friday from 9 a. m. to noon and from 1 to 4 p. m. They will be held in the new Red Cross chapter headquarters at 114 W. Lane St.

Persons interested in them are requested to contact Mrs. Young at OR 3-5496 immediately.

Mrs. Young said it will be possible for the instructors to conduct home nursing classes after they have completed the course. She said they would be able to teach county residents how to meet simple home emergencies. This includes recognition of some of the early signs of illness, simple nursing care to the sick and injured "at home" and aids in how to "keep the family well."

The importance of the instructor's course was stressed recently by RC field representative Robert Williams, Portland, when he met with Mrs. Young and nursing supervisors chairman Mrs. Sara O'Dell. Williams said "Civil Defense is strongly urging civic-minded persons to take advantage of the Red Cross-sponsored training class in order that more persons may be trained for emergencies."

Olalla Trucker Killed In Crash Near Sutherlin

(Continued from Page One)

persons had met tragic death on county highways.

State police and the Sheriff's Dept. investigated the accident.

Slick Highway Blamed
An accident Tuesday morning 11 miles south of Reedsport which took the lives of two men was blamed by a deputy sheriff on rain which made Highway 101 slick. The dead were identified as Calvin Forrest Crass, 45, Empire, and Vern Maurice Fleck, 51, Coos Bay.

The accident happened about 7:15 a. m. when the "crummy" in which five men were riding to work in the woods skidded on a curve about 1/4 mile north of the Douglas County line. It skidded a Greyhound bus.

The bus driver told investigating police that he applied his brakes when he saw the "crummy" skidding toward him. That caused the bus to slide. The "crummy" stayed on its wheels, while the bus, air to its brakes gone, slid sideways down the highway, but also stayed on its wheels. Dep. Sheriff Lee Shipley said the "crummy" was registered to Crass.

Prison Rioters In Texas Demand 'Sufficient' Food
SAN ANTONIO, Tex. — More than 200 prisoners rioted for nearly three hours last night at the Bexar County Jail.

The riot came to an end shortly before midnight after promises were made that no one would be punished. A reinforced crew of jailers stood guard through the night.

Some prisoners claimed insufficient food caused the disturbance. Nobody was seriously injured but damage done to the fourth and fifth floors of the jail was extensive. Sheriff's officers said some of the rioting prisoners suffered "bumps and cuts." None of the scores of officers who tried to quell the riot was reported hurt.

Jailers Doused
Some jailers who tried to stop the disturbance with fire hose had the hose taken from them and were themselves driven from the floor with the high-pressure torrents.

Plumbing was ripped from the walls. Prisoners hooted and catcalled at officers.

"Everything was soaked," one officer said.

Chief Jailer Bob Beckman, whose promises to the prisoners finally ended the disturbance, said he doubted if "insufficient food" was the cause of the riot as one prisoner claimed. He said several ringleaders "just made bad apples of the whole barrel."

AUSTIN, Tex. — A group of convicts have lost their court effort to force the state prison system to feed them three meals a day instead of two.

District Judge J. Harris Gardner Tuesday denied their plea for a mandamus against Prison Manager O. B. Ellis.

The convicts were part of a group of 52 who staged a sitdown strike on the food issue at the prison last April 13.

In a pencilled motion, the convicts had contended they were under state law that requires they be provided three "wholesome nourishing and appetizing meals a day."

First Postwar Paternity Suit Hits U. S. Soldier
FRANKFURT, Germany — The first postwar paternity suit against an American by a German woman has been filed in a German court here. Allied occupation regulations previously had barred such suits.

The suit, expected to provide a precedent for similar cases, asks that an American Army captain provide 120 marks (\$35.70) a month for support of an eight-year-old girl until she is 18.

The suit was filed Tuesday by Louis Jeddhauser, a Munich lawyer. He refused to divulge the names of the principles. Court officials also refused to make the names public until the trial, for which a date has not been set.

German welfare authorities estimate the American occupation forces have left 50,000 illegitimate children behind in Germany.

Shoemaker Wins \$16,000 On TV Question Show

NEW YORK — A Bronx shoemaker who knows just about everything about opera won \$16,000 Tuesday night on the CBS television show, "The \$64,000 Question."

Gino Prato, 33, answered a four-part question about Giacomo Puccini's last, unfinished opera to win the prize. Next week he can try for \$32,000. If he misses, he gets a consolation prize of an automobile. He also can take his \$16,000 and quit.

The highest possible prize is \$64,000, which no one has yet tried for.

Parents' Right To Punish Children OK'd By Court

LOS ANGELES — Parents have a God-given right to punish their children, within reason, Superior Judge Clement D. Nye commented as he dismissed child beating charges against a meat cutter, Salvador Mora.

Mora told the court Tuesday he beat his sons Mario, 9, and Salvador Jr., 7, with a belt when they "misappropriated" some breakfast food.

"I don't want my boys to grow up to be juvenile delinquents," he testified.

Ex-Labor Secretary Undergoes Brain Surgery

WASHINGTON — Martin P. Durkin, 61, former secretary of labor, underwent brain surgery Wednesday at Georgetown University Hospital.

Durkin, now president of the AFL Plumbers Union, underwent an operation for a brain tumor last September.

Durkin was secretary of labor during the first 10 months of President Eisenhower's administration. He resigned in a dispute over what proposals the administration was to make on amending the Taft-Hartley Law.

New Study Ordered In Road Link Project

(Continued from Page One)

Mine road, Ashley said, was that adverse grades of from 6 to 8 percent would be encountered. It was the contention, he said, that easier adverse grades were obtainable by way of Bradley Creek, although steeper grades would result on the Calapooia side. Logging trucks would be traveling light on the steep grades, it was held, thus making the route more economical for hauling.

The court, Ashley said, has not definitely abandoned the Bonanza route, but is anxious to find the most suitable road location and will continue engineering studies for that purpose.

Fred Bonebrake, president of the Douglas County Taxpayers League, reports that some members of that organization contend the proposed connection is unnecessary. The opinion has been expressed, Bonebrake said, that the connecting road would receive little use for log hauling and that the cost is not justified by the traffic the road would carry.

The league has called a public meeting at the Hotel Umpqua Civic Room at 2 p. m. Saturday to consider the matter.

Government Releases More Anti-Polio Shots

WASHINGTON — The government Wednesday released about 1,100,000 more cubic centimeters, or shots, of Salk polio vaccine.

The new batch was in progress of manufacture when the government adopted new standards and testing requirements for the vaccine, the announcement. It met the new requirements and has been cleared, it added.

The government now has released about 5,058,000 cubic centimeters of vaccine since the revised testing procedures were adopted May 26. A cubic centimeter makes one shot.

The vaccine released Wednesday was manufactured by Eli Lilly Co., Indianapolis, the announcement said.

Its distribution will be handled by the National Foundation for Infantile Paralysis in its program of free shots for first and second grade school children.

Descendants Of Indian Tribes Eligible For Funds

Persons of Indian blood who are lineal descendants of members of seven Oregon tribes must file applications by Aug. 30 in order to participate in distribution of the Western Oregon judgment fund.

The warning was issued today by Don C. Foster, director of the Portland area office of the Bureau of Indian Affairs. A congressional act provides distribution of funds to descendants of the Umpqua, Coquille, Chetco, Tootooney, Tillamook and Molok or Molalla tribes.

A field office has been established at Newport to accept, file and assist in preparation of applications. Persons who have not filed, should contact Clyde Busey, administrative officer, Box 1335, Newport, before it is too late. Foster said.
