pound for pound

Chevrolet's got more GO!

Chevrolet's "Turbo-Fire V8" pours out more horsepower per pound than any other engine in its field. That's one of the things that make Chevrolet the new winner in stock car competition. It's one reason young-minded, on-the-go people take to the new Chevrolet like trout take to water. And it's one reason you really ought to try this new Chevrolet yourself. Soon, we hope... if only to see why Chevrolet's causing such a commotion!

GOT MORE FOR YOU

9 engine-drive choices
on all models

Two great 8's—the 162-h.p. "Turbo-Fire" or, optional at extra cost, 180-h.p. "Super Turbo-Fire"—the hottest, shortest stroke V8's in Chevrolet's field. Two great "Blue-Flame" 6's—most powerful in their field. Three modern drives! The choice is all yours—and all wonderful!

Best known, best liked
body in the business

It's Body by Fisher—world-famous for beauty, quality and fine construction. You'll find Fisher Body on some of America's most popular high-priced cars and on Chevrolet. But on no other car in Chevrolet's field!

12-volts for twice the punch

All Chevrolet engines are "high-voltage" engines—with the only 12-volt electrical systems in Chevrolet's field. That means quicker starting in all weather, finer performance, and a greater reserve of electrical power.

Something new in
steering and suspension

Special ball bearings in the steering gear reduce friction. Spherical joints in the Ride-Rite front suspension roll the bumps smooth. This new Chevrolet rides, handles and corners as no Chevrolet ever did before!
