

DEDICATION is scheduled Sunday at 2 p.m. at the Roseburg Veterans Administration Hospital of the Physical Medicine and Rehabilitation building at top. The \$150,000 is the first major addition to the hospital since 1936. Below is a quonset addition to the physical medicine plant. With the expanded physical therapy plant, education to veterans at the hospital is now available in rug weaving, textile painting, ceramics, photography, manual arts, lapidary, mechanical drawing, printing, welding, machine shop practice, radio and electric appliance servicing and repair, plastics and other crafts.

Kefauver Charges Deception In Hells Canyon Decision

WASHINGTON (AP)—Sen. Kefauver (D-Tenn.) said Saturday the handling of the Hells Canyon Dam decision marks "another flagrant example of this administration's policy of deception."

Hiroshima Marks Bomb Anniversary

HIROSHIMA, Japan (AP)—Hiroshima marked the 10th anniversary of its atomic destruction Saturday with an appeal to the world "never to repeat the tragedy."

YOUR BODY

ROSEBURG, OREGON—These health articles are written and paid for by Dr. B. A. SMITH, Chiropractic and Naturopathic Physician, 1500 Garden Valley Road, in the interest of public health and to help you understand the body function. Look for these informative articles every Saturday.

The high mortality between the ages of forty and sixty, especially in the United States among men, would indicate either an increasing strain at this period as a result of the growing demands of business and social life, or a lessening ability of the organs to meet their functional demands—probably both. Deaths in middle life are usually due to the breaking down of various vital organs of the body, when subjected to strain. Nervous collapse, high blood pressure, hardening of the arteries, apoplexy, heart failure and kidney disease are some of the types of functional disease that are likely to occur at this time.

To meet this period successfully certain precautions need to be observed. Certain dietary precautions must be met. Rest and recreation are a necessity.

The bodily condition known as "old age" or senility, while it almost invariably develops sooner or later, is not the inevitable result of living a certain number of years, and may be long postponed, by the proper dietary regime and manner of living. On the other hand, a poor diet or improper mode of living may bring on premature senility. Some individuals are older at forty than others are at eighty.

Senility is not the necessary result of wear and tear, but rather of improper use of the body and

proved a privately financed power project in the Hells Canyon area which would preclude a single high dam built with federal money.

Several Democratic senators said Friday they would seek to make a national political issue of the decision.

Kefauver said in his statement that the decision destroyed "for all time the great potential of this great natural resource."

But he charged his criticism on what he termed was administrative efforts to conceal the facts about the decision "from the Congress and the public."

The senator said that FPC Chairman Jerome K. Kuykendall, testifying before the House Small Business Committee July 28, was asked several questions about the Hells Canyon Dam matter.

He repeatedly insisted, Kefauver said, that it was not proper for him to discuss a case pending before his commission, any more than a court should do so.

"However, on Aug. 4, hours after Congress had adjourned, the opinion and order issuing the license to Idaho Power Co. for Hells Canyon was issued," the Tennesseean said. "And we find the notation: 'Adopted: July 27, 1955.'"

"The matter had already been decided when Mr. Kuykendall testified in the House that it was pending."

"Add this action to the long list of deceptions uncovered in connection with the Dixon-Yates deal...

Sutherland School Head Takes Leave Of Absence

A year's leave of absence, necessitated because of poor health, has been granted by the Sutherland School Board to Supt. of Schools William Riddleberger.

He will teach part-time in the Ontario, Ore., schools and do consulting work until his health improves, according to the Sun-Tribune, Sutherland.

Tom Huebner, head teacher at the West School, was chosen by the board to be superintendent pro tempore. He will be relieved of his teaching duties during the year Riddleberger is away. A salary will be fixed for Huebner later.

Storms Give Some Help To Heat-Struck States

By THE ASSOCIATED PRESS

The northernmost tier of states and the Far West enjoyed moderate temperatures Saturday but the heat clung like adhesive tape to the other sections of the nation.

Blythe, Calif., one of the hot spots, had a low of 86. On the other extreme was Drummond, Mont., with 41.

A scattering of thundershowers in the Central section gave at least temporary relief to many communities.

Twenty-four hour rainfall measured 5.53 inches at Coloma, Mo., 4.88 at Sumner, Mo., 2.76 at Chicago and more than an inch at Moline, Ill., and South Bend, Ind.

Sutherland Woman In Hospital After Traffic Accident

A Sutherland woman, Mrs. Gertrude Rogers, 52, was reported in "pretty good" condition at Mercy Hospital Saturday following a traffic accident Friday involving her vehicle and a loaded logging truck east of Sutherland.

According to state police, the accident occurred on the Nonpariel Road as Mrs. Rogers was traveling west and the truck, operated by Harry Woodrow Wilson, Springfield, was heading east. No citations were issued.

Mrs. Rogers suffered a fractured left knee and lacerations of the face and arms. Wilson was not injured. Mrs. Rogers' car was "totaled," officers said. There was minor damage to the truck.

In Roseburg, police investigated two traffic mishaps Friday.

At 8:10 p.m., a car driven by Eldridge Eugene Brown, 3035 Porter St., stopped for a traffic light on Stephens Street at Washington. Police said vehicles operated by Everett Ernest Jackson, VA Hospital, and Andy Woodcock, 2901 Harvard Ave., failed to stop in time and successively piled up behind the Brown car.

Officers cited Jackson and Woodcock for following too closely in traffic and Woodcock for failure to have a driver's license on his person. Police estimated damage at \$355 to the three cars.

Cars driven by Sam Gosso, 1407 Cedar St., and Eulalia Nadean Compton, 1338 1/2 Ball St., came together on Washington Street at Main Friday morning. Mrs. Compton, who holds an instruction permit, was cited for failure to have a licensed driver with her. Damage to the cars was light, police said.

Sen. Kefauver Labels Charges Of ADA Unfair

By JACK BELL

WASHINGTON (AP)—Sen. Kefauver (D-Tenn.) has labeled as "unjust" an Americans for Democratic Action assertion that both President Eisenhower and Democratic congressional leaders have shown "indifference to the public interest."

Kefauver, who classes himself in the "liberal" wing of his party, said he does not agree with the ADA charges voiced yesterday by National Chairman Joseph L. Rauh Jr.

Rauh said Eisenhower offered "hopelessly inadequate" remedies for critical domestic problems and the Democrats accepted them in the name of "teamwork."

The ADA is a private organization, espousing New Deal principles, which often supports Democratic candidates.

"It is unthoughtful and unjust to make any such blanket indictment of the Democratic congressional leaders and of President Eisenhower," Kefauver said in an interview.

"Congress didn't accomplish everything we would have liked to do but it was quite successful in foreign affairs matters. There was more confusion on domestic issues but we still have another session and I hope that in it school construction, highway, social security, water resources and farm legislation will be the first order of business."

Several Minor Fires Reported In County Areas

Several minor fires were reported in the county Friday by fire fighting associations.

Douglas Forest Protective Assn. Dispatcher Wayne Miller said a South Douglas DFLA crew from Canyonville controlled a blaze at the Tri-City dump about 7 p.m. which was started by debris burning. No damage was reported. Earlier the same day, at 2:15 p.m., a DFLA crew from Hinkle Creek put out a five-acre grass fire near the Plat 1 Road near Sutherland. It was the fourth in the same area, and Miller said it was believed started by boys playing with matches. There was no damage.

Roseburg Rural Fire Dept. members were called to the W. Eard home, 3062 Hughes St. at 11:10 a.m. when the electric motor in a washing machine caught fire. They said damage to the motor was not determined.

Elsewhere, the Winston-Dillard Rural Fire Dept. made two runs Friday. They put out a grass fire on the Don Lyons farm north of Winston at 10:05 a.m. No damage was reported from the blaze believed started by a cigarette.

In the afternoon the rural firemen worked quickly to prevent a grass fire on the Hoyt ranch on Rice Creek from spreading, reports News-Review Correspondent Mrs. Richard Nichols. Firemen told they caught it just short of the timbered area. They reported no damage from the blaze believed to have been started by a young boy playing with matches.

15 More Stream Gauging Stations Slated For County

The U.S. Geological Survey is planning to install approximately 15 more stream gauging stations in Douglas County, according to Ben B. Irving, director of the county's water resources survey.

Data from the stations will help determine seasonal water runoff, Irving said. Installation and operation of USGS stations is done in cooperation with local, county, state and other federal agencies.

New gauges have already been installed on Cavitt Creek and Sutherland Creek. Others are planned on the following creeks: Jackson, Days, South Myrtle, North Myrtle, Steamboat, Rock, Elk, Pass, Yoncalla, Calapooia, Lookingglass and the west fork of Cow Creek.

Earlier, gauges were installed by USGS at points four miles above Elkton on the Umpqua River, at Brown's Bridge and Copeland Creek on the North Umpqua, at Winston and Tiller on the South Umpqua, near Riddle and Azalea on Cow Creek, and on Little River. There are several others on the upper North Umpqua and its tributaries.

Record Vote Predicted For Kentucky Primaries

LOUISVILLE, Ky. (AP)—A record vote appeared almost a certainty Saturday as Kentucky chose candidates for governor in one of the hottest Democratic primaries ever held in a state famous for lusty elections.

Voting was extremely heavy. No disorder was reported.

General interest and factional bitterness, plus hot but otherwise perfect weather, were expected to lure a half million or more Democrats to the polls. Possibly not more than 100,000 were expected to vote in the quiet Republican primary.

Two Boys Are Indicted For Drowning Two Others

PHILADELPHIA (AP)—Murder indictments against a pair of 12-year-old boys were handed down yesterday by the August grand jury in a case involving the drowning of two other lads.

Theodore Armprister and Joseph Ryan are charged with both involuntary and voluntary manslaughter in the deaths of Ellis Palmer, 10, and Adolph Sincavage, 12.

Investigating officers said Armprister pushed the victims, who had been fishing, into the Schuylkill River last July 1 and then stole their bicycles. The Armprister boy was accused of conceiving and executing the plot. Ryan was said to have been dominated and influenced by his companion.

Girl Stows Away Aboard Canadian Destroyer At Hilo

HILLO, Hawaii (AP)—Police today reported a new element in the story of an attractive 16-year-old girl who slipped aboard the Canadian destroyer Athabaskan and is en route to Long Beach, Calif., with 150 men.

Joyce Joan Pilapil, 5-foot-5 high school senior of Portuguese-Filipino blood, left a farewell note for her parents in Papaioa about July 28.

"Folks, I can't stay here any longer, so I'm going away with Bill," it read. "So don't worry."

Police reported this postscript: "Bill wants to take care of me and the baby, so let us do it together."

Joyce's mother, Mrs. Fremelin Pilapil, said she didn't know Bill except that he "worked on one of the ships someplace."

In Ottawa, a spokesman for the Royal Canadian Navy said the girl slipped aboard during an open house function. She was discovered in a stern compartment when the destroyer was at sea with her sister ship, the Cayuga.

"As far as we know no member of the crew of the Athabaska assisted the girl to conceal herself aboard the ship," the spokesman said. He reported she was placed in "suitable accommodations" and would be turned over to U.S. officials Sunday at Long Beach.

Representative Wants Rosenberg Backers Branded

WASHINGTON (AP)—Rep. Walter (D-Pa.) said today he will ask Atty. Gen. Brownell to list as subversive the National Committee to Secure Justice in the Rosenbergs Case.

Such a listing would not affect the now-disbanded organization, but would hinder government employment of those connected with it.

Walter spoke to newsmen after his House-Un-American Activities Committee ended four days of hearings on the communists' role in the campaign to save the lives of Julius and Ethel Rosenberg.

The Rosenbergs were executed as atomic spies in June, 1953, after a long legal battle that attracted international attention.

The House committee quizzed 21 witnesses about Communist activity in behalf of the Rosenbergs. Four former FBI undercovermen told of Red drives for the convicted pair in Boston, Mass., eastern Pennsylvania, Detroit, Mich., and Chicago, Ill., through local save-the-Rosenbergs committees or otherwise.

Auditions Sunday For Heidt Show

Most of central Douglas County's amateur and professional talent is expected Sunday night at 7:30 at the Central Junior High School for auditions for the Horace Heidt "American Way" show.

Three individuals or groups will be selected by a talent scout Sunday night to perform with the "American Way" show Aug. 17. One of the three acts may be chosen to appear on the national network show in Portland.

The auditions Sunday night are open to any entertainers 14 years of age or over. Tickets for the auditions and main show are available from Harmony House in Roseburg or from any Junior Chamber of Commerce member. The two shows are being sponsored by the Jaycees.

Little Hope Now Held For Missing Woman

KANSAS CITY (AP)—A widespread search for a wealthy automobile dealer's missing wife, feared kidnapped and slain, had failed to turn up any productive leads by early today.

The blood-spattered clothing and car of Mrs. Wilma Allen, 34, mother of two, were the only clues.

Mrs. Allen, who always cautioned her two young sons to scream if any strange persons attempted to enter their motor car, was last seen early Thursday afternoon during a shopping trip.

Her husband, president of one of Kansas City's large automobile agencies, said "if anybody—a stranger—tried to force entry into her car, I'm sure she would have screamed and put up a severe struggle."

Allen told friends he had almost given up hope of seeing his wife alive and does not believe she is a victim of a kidnap plot for ransom.

Hurricane Changes Course To Spare Virgin Isles

MIAMI, Fla. (AP)—Hurricane Connie changed its course slightly during the night and will bypass the Virgin Islands and Puerto Rico to the north.

Gordon Gunn, chief storm forecaster in the Miami Weather Bureau, said the first big tropical storm of the year still moved west-northwestward in the general direction of the Bahamas and the South Atlantic Coast and his special weekend alert to U. S. coastal areas remained in effect.

At 9 a. m. (EST) the center of the storm edged past the Virgin Islands, about 1,100 miles southeast of Miami, at a forward speed of about 14 miles an hour.

Missing Scout Found In Abandoned Mine

LONGVIEW, Wash. (AP)—A 12-year-old Longview boy, who had been sought through two nights in the rugged Spirit Lake region, was found safe early Saturday in an abandoned mine.

Two Forest Service men found Dennis Lloyd, son of Mr. and Mrs. Robert Lloyd, after he had been sought for more than 36 hours in heavily timbered terrain.

The boy was in good condition and able to walk out. He had taken shelter in the old mine in expectation of rescuers finding him. A pack train was sent to pick the boy up and return him to the Boy Scout camp. The mine is about 12 miles from the camp.

Camera Stolen

Roy Hill, Manly, Iowa, Friday complained to Roseburg police that a box camera was stolen from his car, parked at 532 Cobb St.

ROSEBURG ROAD RUNNERS tune up for their motorcycle races slated for the Lookingglass track Sunday at 1 p.m. Riders from Myrtle Creek, Canyonville, Medford, Cottage Grove, Eugene and Corvallis will join local cyclists in scrambles for three trophies and various prizes.

Nightcrawler Runs End With Tonight's Trips

Helzel said he would call a public hearing, but has not done so yet.

If the Roseburg Chamber of Commerce has anything to say about it, however, the "Nightcrawler" is just being sidetracked temporarily.

Alan Knudson, chairman of the committee which launched the "Pony Express" ride, said Friday night that "we (Roseburg Chamber) have a couple of surprises cooking down here." He would not say what the surprises were, but he said they would be introduced at the PUC hearing. He said he didn't think the chamber could forestall the end of the run Saturday night.

But he said he thought the chamber could force the SP to start the service again. "When they (SP) find out they have to run it, they will find a way to get better service," he said.

About the sudden announcement from SP Friday, Knudson said: "We won't even miss it because it never was a service anyway." He said: "We are out to promote a service worthy of the term." He continued that this was the reason for the "Pony Express," a show how "ridiculous the situation is." He said the chamber feels the SP "downgraded" the service so it would have an excuse to cut off passenger service to Southern Oregon.

Knudson called SP's claim of a \$486,000 loss last year a "boke," keeping technically and a good cover-up for poor management in general and poor engineering in particular. Railroads have done little engineering to improve physical facilities in the last 50 years, he said. "An honest analysis of costs, merchandising and engineering," he said, would solve the SP problem. He concluded that profits through "efficient service" hasn't been touched.

"I think we can force them into it," he said.

Fast Field Awaits Portland Kickoff

PORTLAND (AP)—Fast turf and a good crowd were likely for tonight's exhibition football game matching the Los Angeles Rams and the Pittsburgh Steelers.

Advance ticket sales indicated a turnout of around 25,000 for the 8:30 p. m. (PST) kickoff at Multnomah Stadium.

Both teams feature spectacular offensive patterns, with emphasis on passing and hard-to-catch backs. Norm Van Brocklin is expected to handle much of the Rams' passing, giving way to Billy Wade from time to time. Skeet Quinlan and Tank Younger at halfbacks and Dan Towler at fullback will complete the Los Angeles backfield.

Douglas Lumber Clinches Tie In Glide League

Douglas County Lumber defeated Glide Teachers 5-4 in a Glide Softball League game this week to clinch at least a tie for first place in the circuit. The winners took the five-inning game on the strength of Dale Bonnell's pitching and a home run by Harry Bakken into right field.

In a second league game, Amann's Associated Station dumped Glide Lumber Co. 11-4 in a four-inning game called when darkness set in. Bonnell was the winning pitcher.

Woman Athlete Has 2nd Cancer, Expects Return

GALVESTON, Tex. (AP)—Babe Didrikson Zaharias, woman athlete of the century, has developed a second cancer but "firmly expects to return to golf."

George Zaharias, her husband, said last night doctors at John Sealy Hospital here found a "small cancer lesion" on the right side of the sacrum posterior of the pelvic girdle. He said X-ray treatments have been started.
